The 14th Dalai Lama Mario I. Aguilar, 2020-11-26 This book outlines the life of spiritual diplomacy of the 14th Dalai Lama and his emergence as a global peace icon It traces his evolution as a Tibetan Buddhist monk rooted in the Geluk tradition as a Nobel laureate and as an internationally recognized peacemaker The volume brings to the fore the Dalai Lama s monastic life grounded in the compassion and ethical responsibility of a bodhisattva somebody who is willing to renounce samsara for the benefit of others as well as that of a political leader of Tibet It examines the deep impact of his ideas of peacekeeping and universal responsibility on world politics which draw on acceptance inclusion and respect as their central pillars Further this book highlights his departure from the practices of the earlier Dalai Lamas and how the Chinese invasion and his exile in India transformed him into a universal figure of peace rather than solely being the leader of Tibet An introspective read this book will be of much interest to readers interested in spiritual diplomacy and political philosophy It will also be of interest to scholars and researchers of peace and conflict studies international relations politics and religion especially Buddhism

When a Woman Becomes a Religious Dynasty Hildegard Diemberger, 2014-03-04 In the fifteenth century the princess Chokyi Dronma was told by the leading spiritual masters of her time that she was the embodiment of the ancient Indian tantric deity Vajravarahi known in Tibetan as Dorje Phagmo the Thunderbolt Female Pig After suffering a great personal tragedy Chokyi Dronma renounced her royal status to become a nun and in turn the tantric consort of three outstanding religious masters of her era After her death Chokyi Dronma s masters and disciples recognized a young girl as her reincarnation the first in a

long powerful and influential female lineage Today the twelfth Samding Dorje Phagmo leads the Samding monastery and is a high government cadre in the Tibet Autonomous Region Hildegard Diemberger builds her book around the translation of the first biography of Chokyi Dronma recorded by her disciples in the wake of her death The account reveals an extraordinary phenomenon although it had been believed that women in Tibet were not allowed to obtain full ordination equivalent to monks Chokyi Dronma not only persuaded one of the highest spiritual teachers of her era to give her full ordination but also established orders for other women practitioners and became so revered that she was officially recognized as one of two principal spiritual heirs to her main master Diemberger offers a number of theoretical arguments about the importance of reincarnation in Tibetan society and religion the role of biographies in establishing a lineage the necessity for religious teachers to navigate complex networks of political and financial patronage the cultural and social innovation linked to the revival of ancient Buddhist civilizations and the role of women in Buddhism Four introductory stage setting chapters precede the biography and four concluding chapters discuss the establishment of the reincarnation lineage and the role of the current incarnation under the peculiarly contradictory communist system Religions of the World J. Gordon Melton, Martin Baumann, 2010-09-21 This masterful six volume encyclopedia provides comprehensive global coverage of religion emphasizing larger religious communities without neglecting the world's smaller religious outposts Religions of the World Second Edition A Comprehensive Encyclopedia of Beliefs and Practices is an extraordinary work bringing together the scholarship of some 225 experts from around the globe The encyclopedia's six volumes offer entries on every country of the world with particular emphasis on the larger nations as well as Indonesia and the Latin American countries that are traditionally given little attention in English language reference works Entries include profiles on religion in the world's smallest countries the Vatican and San Marino profiles on religion in recently established or disputed countries Kosovo and Nagorno Karabakh as well as profiles on religion in some of the world's most remote places Antarctica and Easter Island Religions of the World is unique in that it is based in religion on the ground tracing the development of each of the 16 major world religious traditions through its institutional expressions in the modern world its major geographical sites and its major celebrations Unlike other works the encyclopedia also covers the world of religious unbelief as expressed in atheism humanism and other traditions A Buddhist Sensibility Dominique Townsend, 2021-03-09 Founded in 1676 during a cosmopolitan early modern period Mindr ling monastery became a key site for Buddhist education and a Tibetan civilizational center Its founders sought to systematize and institutionalize a worldview rooted in Buddhist philosophy engaging with contemporaries from across Tibetan Buddhist schools while crystallizing what it meant to be part of their own Nyingma school At the monastery ritual performance meditation renunciation and training in the skills of a bureaucrat or member of the literati went hand in hand Studying at Mindr ling entailed training the senses and cultivating the objects of the senses through poetry ritual music monastic dance visual arts and incense production as well as medicine and astrology Dominique

Townsend investigates the ritual artistic and cultural practices inculcated at Mindr ling to demonstrate how early modern Tibetans integrated Buddhist and worldly activities through training in aesthetics Considering laypeople as well as monastics and women as well as men A Buddhist Sensibility sheds new light on the forms of knowledge valued in early modern Tibetan societies especially among the ruling classes Townsend traces how tastes values and sensibilities were cultivated and spread showing what it meant for a person lay or monastic to be deemed well educated Combining historical and literary analysis with fieldwork in Tibetan Buddhist communities this book reveals how monastic institutions work as centers of cultural production beyond the boundaries of what is conventionally deemed Buddhist

Tibet in 1938-1939 Isrun Engelhardt, 2007 This volume presents 150 photographs most published here for the first time of the famous and infamous Sch fer Expedition In 1938 the German biologist Ernst Sch fer led a scientific expedition to Tibet His team of scientists was able to record Tibetan life and culture with a level of detail previously unachieved by other Europeans The photographs in this volume are one part of that record documenting a vibrant traditional society in the early stages of its encounter with modernity The Tibetans in the photographs from high aristocrat to humble peasant are now dead Many of the temples and buildings where they worshipped worked and lived have been destroyed This volume of photographs and the essays that accompany them portray a Tibet that existed not so long ago but that has since become a
