## Dance Around The Fire:

The 1870 Ghost Dance Cora Alice Du Bois, 2007-01-01 The 1870 Ghost Dance was a significant but too often disregarded transformative historical movement with particular impact on the Native peoples of northern California The spiritual energies of this great wave as Peter Nabokov has called it have passed down to the present day among Native Californians some of whose contemporary individual and communal lives can be understood only in light of the dance and the complex religious developments inspired by it Cora Du Bois's historical study The 1870 Ghost Dance has remained an essential contribution to the ethnographic record of Native Californian cultures for seven decades yet is only now readily available for the first time Du Bois produced this pioneering work in the field of ethnohistory while still under the tutelage of anthropologist Alfred Louis Kroeber Her monograph informs our understanding of Kroeber's larger grand and crucial salvage ethnographic project in California its approach and style and also its limitations The 1870 Ghost Dance adds rich detail to our understanding of anthropology in California before World War II **Primary Plans**, 1912 The New International Encyclopaedia, 1905

Seymour, 1918 Ingo Helen Dunmore, 2009-01-23 I wish I was away in Ingo Far across the briny sea Sailing over deepest waters Where love nor care never trouble me By the Cornwall coast where Sapphire lives with her family it's easy to hear the call of the sea Too easy When the sea called to Sapphy's father he vanished from her life When the sea called to her brother he started disappearing for hours on end And now the sea is calling to Sapphy and she feels its pull more strongly than she's ever felt anything in her life In a novel full of longing mystery and magic Helen Dunmore takes us to a new world that has the power both to captivate and to destroy At the waterline the two worlds of Air and Ingo meet Sapphy and her brother Conor find themselves at the boundary between these worlds in a place of danger and amazing discoveries **Mortal Rituals** Matt J. Rossano, 2013-08-13 A psychology professor examines what

the survivors of the airplane crash hailed The Miracle of the Andes can show us about human evolution On December 21 1972 sixteen young survivors of Uruguayan Air Force Flight 571 were rescued after spending ten weeks stranded at the crash site of their plane high in the remote Andes Mountains The incident made international headlines and spawned several best selling books fueled partly by the fact that the young men had resorted to cannibalism to survive Matt Rossano examines

this story from an evolutionary perspective weaving together findings and ideas from anthropology psychology religion and cognitive science During their ordeal these young men broke civilized taboos to fend off starvation and abandoned civilized modes of thinking to maintain social unity and individual sanity Through the power of ritual the survivors were able to endure severe emotional and physical hardship Rossano ties their story to our story seeing in the mortal rituals of this struggle for survival a reflection of what it means to be human Rossano s narrative describes a microcosm of human evolution and I think this book will grab the interest of many readers students as well as the general public as it teaches essential facts about the way Homo sapiens evolved David Hicks Stony Brook University and Clare College Cambridge University Rossano masterfully weaves a moving contemporary drama with a compelling account of the evolutionary history of ritual and religion An impressive accomplishment and a truly captivating read from start to finish Richard Sosis University of Connecticut cofounder and coeditor of Religion Brain Behavior     The New International Encyclopædia Frank Moore Colby,Talcott Williams,1917
