## **Dance Of Geometry:**

The Dance of Geometry Brian Howell, 2002-01-01      **William Forsythe's Postdramatic Dance Theater** Freya Vass, 2023-08-09 This book takes choreographer William Forsythe's choreographic and scenographic processes as a holistic lens through which to view dance as a fundamentally visuo-sonic art form and choreography as a form of perceptual experimentation. In doing so, it reveals how the made worlds within which postdramatic dance is situated influence how choreography is perceived. Resonating with ecological perspectives but also drawing on an extensive range of cognitive research approaches, the volume's choreo-scenographic perspective emphasizes the importance of considering the expanded scenography of lighting, sound, space, scenic elements, costume, and performer movement when analyzing the sensory and cognitive perception of dance. The volume provides a first book-length cognitive study of both an individual choreographer and the aesthetics of postdramatic theatre. It also satisfies a need for more dedicated scholarship on Forsythe, whose extensive and varied array of groundbreaking ballets and dance theater works for the Ballett Frankfurt (1984-2004) and The Forsythe Company (2005-15) and as an independent choreographer have made him a key figure in 20th-21st century dance.

**The Mathematics of Bees** Ali Royston, *Tiny architects with uncanny precision: bees live by hidden equations. Dive into the elegant math of hives, flight, and communication in this celebration of nature's unsung geometers.* The Teaching of Geometry David Eugene Smith, 1911      **Brain-compatible Dance Education** Anne Green Gilbert, 2006 This classic must-have is NDA's most popular publication. Includes locomotor, nonlocomotor, movement assessment, and interdisciplinary topics.

**Improvised Dance** Nalina Wait, 2023-04-14 This book elucidates the technical aspects of improvised dance performance and reframes the notion of labour in the practice from one that is either based on compositionally formal logic or a mysterious impulse to one that addresses the in-corporeal dimensions of practice. Mobilising the languages and conceptual frameworks of theories of affect, embodied cognition, somatics, and dance, this book illustrates the work of specialist improvisers who occupy divergent positions within the complex field of improvised dance. It offers an alternative narrative of the history and current practice of Western improvised dance, centred on the epistemology of its in-corporeal knowledges, which are elusive yet vital to the refinement of expertise. Written for both a disciplinary-specific and interdisciplinary audience, this book will interest dance scholars, students, and practising artists.

**Choreographing Discourses** Mark Franko, 2018-12-07 *Choreographing Discourses* brings together essays originally published by Mark Franko between 1996 and the contemporary moment. Assembling these essays from international, sometimes untranslated sources and curating their relationship to a rapidly changing field, this Reader offers an important resource in the dynamic scholarly fields of Dance and Performance Studies. What makes this volume especially appropriate for undergraduate and graduate teaching is its critical focus on twentieth and twenty-first century dance artists and choreographers among these: Oskar Schlemmer, Merce Cunningham, Kazuo Ohno, William Forsythe, Bill T. Jones, and Pina Bausch, some of the most high-profile European

American and Japanese artists of the past century The volume s constellation of topics delves into controversies that are essential turning points in the field notably *Still Here* and *Paris is Burning* which illuminate the spine of the field while interlinking dance scholarship with performance theory film visual and public art The volume contains the first critical assessments of Franko s contribution to the field by Andr Lepecki and Gay Morris and an interview incorporating a biographical dimension to the development of Franko s work and its relation to his dance and choreography Ultimately this Reader encourages a wide scope of conversation and engagement opening up core questions in ethics embodiment and performativity
