Dangerous Parking:

Parking Policy and Enforcement Great Britain: Parliament: House of Commons: Transport Committee, 2006-06-22 Failure to comply with parking restrictions disrupts traffic increases road congestion heightens risks of accidents and delays public transport schedules The Committee's report considers a number of measures required to improve parking enforcement policy in Britain including the key recommendation that we need to move to a single country wide system of decriminalised parking enforcement in place of the current dual system of localised enforcement where parking policy is administered by local authorities in some areas and by the police in others Although transferring responsibility for parking enforcement to local government has succeeded in raising levels of enforcement and compliance poor administrative practices causes driver frustration and wastes resources and threatens to bring the decriminalised parking regime into disrepute Other recommendations include the establishment of clear performance standards in applying parking restrictions improved recruitment remuneration and training to ensure the development of a professional parking service greater transparency in the procedure for challenging penalty charge notices and an increased awareness of the role of the parking adjudication service and the need for local authorities to develop parking strategies which meet local objectives focusing on congestion targets road safety and accessibility issues Parking Stephen G. Ison, Corinne Mulley, 2014-08-26 This book adds to the debate with respect to parking covering the issues of supply and demand the various policy measures namely economic regulatory regional wide or organisational in addition to carefully selected case studies along with the future direction of parking policy

Records and Briefs** California (State)., **House of Commons - Transport Committee: Local Authority Parking Enforcement - HC 118** Great Britain: Parliament: House of Commons: Transport Committee,2013-10-23 The use of parking charges and fines specifically to raise revenue by local authorities is neither acceptable nor legal Annual parking accounts would allow the public to see how much local revenue is derived from the enforcement of fines and what proportion of this come from on or off street parking charges It s right that parking charges be determined locally but hard to justify fines that substantially exceed penalties for more serious offences like speeding DfT s statutory guidance should stipulate that local authorities implement a grace period of 5 minutes after the expiry of paid for time on any paid parking before enforcement officers issue a Penalty Charge Notice PCN The Guidance should be clarified and updated particularly in relation to rules for loading and unloading

A 25% penalty charge discount should also be introduced for motorists who pay within 7 days of losing any appeal to a parking tribunal Local authorities currently offer a 50% discount if motorists pay their penalty charge within 14 days but this is not available to motorists who appeal to a tribunal Motorists should also not have to appeal against PCNs where tribunal adjudicators have repeatedly identified a problem such as poor signage Adjudicators should also be given powers to allow appeals where local authorities fail to follow statutory guidance concerning the use cameras While businesses cannot be completely exempt from parking restrictions local authorities must also ensure that the need to restrict parking and manage congestion does not stifle the ability of businesses to trade and help grow the economy
