Broken Dreams Mark Jackson, 2021-06-10 The midlife crisis has become a cliché in modern society Since the mid twentieth century the term has been used to explain infidelity in middle aged men disillusionment with personal achievements the pain and sadness associated with separation and divorce and the fear of approaching death This book provides a meticulously researched account of the social and cultural conditions in which middle aged men and women began to reevaluate their hopes and dreams reassess their relationships and seek new forms of identity and fresh pathways to self satisfaction Drawing on a rich seam of literary medical media and cinematic sources as well as personal accounts *Broken Dreams* explores how the crises of middle aged men and women were shaped by increased life expectancy changing family structures shifting patterns of work and the rise of individualism

Rose Macaulay, Gender, and Modernity Kate Macdonald, 2017-07-20 This book is the first collection on the British author Rose Macaulay 1881 1958 The essays establish connections in her work between modernism and the middlebrow show Macaulay's attentiveness to reformulating contemporary depictions of gender in her fiction and explore how her writing transcended and celebrated the characteristics of genre reflecting Macaulay's responses to modernity The book's focus moves from the interiorized self and the psyche's relations with the body to gender identity to the role of women in society followed by how women and Macaulay use language in their strategies for generic self expression and the environment in which Macaulay herself and her characters lived and worked Macaulay was a particularly modern writer embracing technology enthusiastically and the evidence of her treatment of gender and genre reflect Macaulay's responses to modernism the historical novel ruins and the relationships of history and structure ageing and the narrative of travel By presenting a wide range of approaches this book shows how Macaulay's fiction is integral to modern British literature by its aesthetic concerns its technical experimentation her concern for the autonomy of the individual and for the financial and professional independence of the modern woman There are manifold connections shown between her writing and contemporary theology popular culture the newspaper industry pacifist thinking feminist rage the literature of

sophistication the condition of inclusionary cosmopolitanism and a haunted post war understanding of ruin in life and history This rich and interdisciplinary combination will set a new agenda for international scholarship on Macaulay s works and reformulate contemporary ideas about gender and genre in twentieth century British literature *The Bridgemen's Magazine*, 1916 **How to Be Happy Though Human** Walter Béran Wolfe, 1999 First published in 1999 Routledge is an imprint of Taylor Francis an informa company **The Glands regulating personality** Louis Berman, 1921 **Joyce, Bakhtin, and Popular Literature** R. B. Kershner, 2014-02-01 The sheer mass of allusion to popular literature in the writings of James Joyce is daunting Using theories developed by Russian critic Mikhail Bakhtin R B Kershner analyzes how Joyce made use of popular literature in such early works as *Stephen Hero* *Dubliners* *A Portrait of an Artist as a Young Man* and *Exiles* Kershner also examines Joyce s use of rhetoric the relationship between narrator and protagonist and the interplay of voices whether personal literary or subliterary in Joyce s writing In pointing out the prolific allusions in Joyce to newspapers children s books popular novels and even pornography Kershner shows how each of these contributes to the structures of consciousness of Joyce s various characters all of whom write and rewrite themselves in terms of the texts they read in their youth He also investigates the intertextual role of many popular books to which Joyce alludes in his writings and letters or which he owned some well known others now obscure Kershner presents Joyce as a writer with a high degrees of social consciousness whose writings highlight the conflicting ideologies of the Irish bourgeoisie In exploring the social dimension of Joyce s writing he calls upon such important contemporary thinkers as Jameson Althusser Barthes and Lacan in addition to Bakhtin Joyce s literary response to his historical situation was not polemical Kershner argues but in Bakhtin s terms dialogical his writings represent an unrelenting dialogue with the discordant but powerful voices of his day many inaudible to us now Joyce Bakhtin and Popular Literature places Joyce within the social and intellectual context of his time Through stylistic social and ideological analysis Kershner gives us a fuller grasp of the complexity of Joyce s earlier writings

Census of India, 1911 ... India. Census Commissioner, 1912 *Impossible Speech* Christopher P. Hanscom, 2024-03-26 In what ways can or should art engage with its social context Authors readers and critics have been preoccupied with this question since the dawn of modern literature in Korea Advocates of social engagement have typically focused on realist texts seeing such works as best suited to represent injustices and inequalities by describing them as if they were before our very eyes Christopher P Hanscom questions this understanding of political art by examining four figures central to recent Korean fiction film and public discourse the migrant laborer the witness to or survivor of state violence the refugee and the socially excluded urban precariat Instead of making these marginalized figures intelligible to common sense this book reveals the capacity of art to address the impossible speech of those who are not asked expected or allowed to put forward their thoughts yet who in so doing expand the limits of the possible *Impossible Speech* proposes a new approach to literature and film that foregrounds ostensibly nonpolitical or nonsensical moments challenging assumptions about the relationship

between politics and art that locate the politics of the work in the representation of content understood in advance as being political Recasting the political as a struggle over the possibility or impossibility of speech itself this book finds the politics of a work of art in its power to confront the boundaries of what is sayable **The Health Bulletin** ,1914 **Child Labour** International Labour Office,1996 3 Basic minimum age **McKinney's Consolidated Laws of New York Annotated** New York (State),1917 Syphilis in Its Medical, Medico-legal and Sociological Aspects Augustus Ravogli,1907 **Pharisees and Publicans** Edward Frederic Benson,1927 **Forecast** ,1924 *Manufacturers' News* ,1924
