Dangerous Class Crime And Poverty In Columbus Ohio 1860 1885:

The Dangerous Class Eric H. Monkkenen, 1975 An important work in the new social history Mr Monkkenen's research lends clarity to the views about what kinds of criminal incidents represent pre political rebellion 1877 Michael A. Bellesiles, 2010-08-10 A powerful examination of a nation trying to make sense of the complex changes and challenges of the post Civil War era Carol Berkin author of A Brilliant Solution Inventing the American Constitution In 1877 a decade after the Civil War not only was the United States gripped by a deep depression but the country was also in the throes of nearly unimaginable violence and upheaval marking the end of the brief period known as Reconstruction and reestablishing white rule across the South In the wake of the contested presidential election of 1876 white supremacist mobs swept across the South killing and driving out the last of the Reconstruction state governments A strike involving millions of railroad workers turned violent as it spread from coast to coast and for a moment seemed close to toppling the nation's economic structure Celebrated historian Michael A. Bellesiles reveals that the fires of that fated year also fueled a hothouse of cultural and intellectual innovation He relates the story of 1877 not just through dramatic events but also through the lives of famous and little known Americans alike A superb and troubling book about the soul of Modern America William Devereaux director of the Huntington-USC Institute on California and the West A bold insightful book richly researched and fast paced Bellesiles vividly portrays on a single canvas the violent confrontations in 1877 Alfred F. Young coeditor of Revolutionary Founders Rebels Radicals and Reformers in the Making of the Nation A wonderful read that is sure to appeal to those interested in the challenges of creating a post Civil War society Choice **Roots of Violence in Black Philadelphia, 1860-1900** Roger Lane, 1986 Lane offers a historical explanation for rising levels of black urban crime and family instability during a paradoxical era Modern crime rates and patterns are shown to be products of a historical culture traceable from its formative years The author charts Philadelphia's story but also makes suggestions about national and international patterns The Socio-economics of Crime and Justice Brian Forst, 2016-06-16 This book on crime and justice is motivated primarily by the idea that individual behaviour is influenced both by self interest and by conscience or by a sense of community responsibility Forst has assembled a collection of authors who are writing in four parts 1 the philosophical foundations and the moral dimension of crime and punishment 2 the sense of community and the way it influences the problem of crime 3 on offenders and offences and 4 on the response of the criminal justice system **Wallless Cities** Shen Hou, 2024-10-21 This book aims to outline the detailed process of integrating nature and cities in a historical context through the lens of urban environmental history capturing how the most ordinary yet enduring natural forces have shaped the form of cities and the thoughts of individuals It provides a detailed examination of the development trends achievements and existing issues in this field and a profound understanding of the urgency and necessity of nurturing new ideas to guide cities out of their ecological paradox It also summarizes the formation and development challenges and missions of American cities centered around the core image

of the City Without Walls **Second Home** Timothy A. Hacsí, 1997 As Timothy Hacsí shows most children in nineteenth century orphan asylums were half orphans children with one living parent who was unable to provide for them The asylums spread widely and endured because different groups churches ethnic communities charitable organizations fraternal societies and local and state governments could adapt them to their own purposes In the 1890s critics began to argue that asylums were overcrowded and impersonal By 1909 advocates called for aid to destitute mothers and argued that asylums should be a last resort for short term care only Yet orphanages continued to care for most dependent children until the Depression strained asylum budgets and federally funded home care became more widely available Yet some Catholic asylums in particular cared for poor children into the 1950s and 1960s *The Young Eagle* Kenneth J. Winkle, 2001-04-01 Drawing on the latest interpretive and methodological advances in historical scholarship *The Young Eagle* The Rise of Abraham Lincoln reexamines the young adult life of America's sixteenth president Controlling the Dangerous Classes Randall G. Sheldon, 2008 This text covers the history of criminal justice from a critical perspective and explores the historical biases of the criminal justice system The overall theme of this book is that both the making of laws and the interpretation and application of these laws throughout the history of the criminal justice system has historically been class gender and racially biased Moreover one of the major functions of the criminal justice system has been to control those from the most disadvantaged sectors of the population that is the dangerous classes This theme is explored using a historical model tracing the development of criminal law through the development of the police institution the juvenile justice system and the prison system **The "Underclass" Debate** Michael B. Katz, 2018-06-05 Do ominous reports of an emerging underclass reveal an unprecedented crisis in American society Or are social commentators simply rediscovering the tragedy of recurring urban poverty as they seem to do every few decades Although social scientists and members of the public make frequent assumptions about these questions they have little information about the crucial differences between past and present By providing a badly needed historical context these essays reframe today's underclass debate Realizing that labels of social pathology echo fruitless distinctions between the deserving and undeserving poor the contributors focus not on individual and family behavior but on a complex set of processes that have been at work over a long period degrading the inner cities and inevitably the nation as a whole How do individuals among the urban poor manage to survive How have they created a dissident infrapolitics How have social relations within the urban ghettos changed What has been the effect of industrial restructuring on poverty Besides exploring these questions the contributors discuss the influence of African traditions on the family patterns of African Americans the origins of institutions that serve the urban poor the reasons for the crisis in urban education the achievements and limits of the War on Poverty and the role of income transfers earnings and the contributions of family members in overcoming poverty The message of the essays is clear Americans will flourish or fail together History and Crime James A. Inciardi, Charles E. Faupel, 1980-12 Using analytic tools adopted from social science

comparative analysis time series analysis and other techniques historical analysis of crime offers insights relevant to today's problems policy makers should read and ponder the thirteen essays in *History and Crime* They just might obtain sufficient insight about crime within a historical context and about past criminal sanctions to persuade them of the futility of coercive measures without an understanding of the causes of crime *History and Crime* belongs in every library and in every classroom in which social history is taught *History* January 1982 *The Old Northwest* ,1977 A journal of regional life and letters
Chicano Social and Political History in the Nineteenth Century Richard Griswold del Castillo,Manuel Hidalgo,1992
American Book Publishing Record ,1975 *Criminal Sentencing in Three Nineteenth-century Cities* William Francis Kuntz,1988 **Encyclopedia of Women and Crime** Nicole Hahn Rafter,2000-10-24 Covers women as offenders victims criminologists criminal lawyers reformers and workers in the criminal justice system **Western Legal History** ,1994
Policing and Crime Control Eric H. Monkkonen,1992 Part of a series examining the history of crime and justice in America this volume looks at the transition of America to a policed society This history focuses on the larger organizational and political context of the law enforcers and also on the individuals whom they policed **The Disreputable Pleasures** John Hagan,1984 *Controlology* Jason Ditton,1979 *Criminal Justice* Robert M. Regoli,1996 An introductory text on the criminal justice system integrating the personal perspectives of victims offenders police attorneys and prison guards Emphasizes a historical perspective and the role of perceptions held by criminal justice practitioners featuring material on criminological theory
