Daniel Pinkham A Bio Bibliography:

Daniel Pinkham Kee Deboer, John B. Ahouse, 1988-06-27 This bio bibliography catalogs more than 300 musical compositions of the prolific American composer Daniel Pinkham. The compositions reflect Pinkham's success at securing commissions from a variety of individuals and organizations and span his entire career to date as composer, performer, and teacher. The volume commences with a biography and then supplies a complete catalog of works and a selected listing of performances. A discography of commercially produced recordings follows with numbers corresponding to those in the previous sections. The final section is a bibliography which is divided into two parts. The first part lists references to general reviews of Pinkham's work or reviews of more than one composition; the second part consists of reviews of specific pieces. As before, the pieces are cross-referenced to the preceding sections. The volume concludes with four appendixes: a list of works arranged chronologically by date of composition, an alphabetical list of works, the literary texts used in the works listed by author, and biblical sources of the texts.

Unger, 2023-08-14 A Library Journal Starred Review March 2024 praises the book as a remarkable resource that will please both musical professionals and amateurs along with teachers and their students and conductors and singers. The dictionary section has more than 1,300 cross-referenced entries on composers, conductors, choral ensembles, choral genres, and choral repertoire. Radice, 2003 Concert Music of the Twentieth Century is about concert music music for contemplation rather than for atmosphere The repertoire discussed in these pages was written by composers with something important to say and with skills to do so Many of the works discussed tie in with a long standing Western European tradition of art music but an equal voice is given to culturally and ethnically diverse composers active during the past several decades Radice provides data about the pieces the composers who wrote them and the contexts in which they originated Our understanding and evaluation of music is a dynamic process and one that is subject to change Music only has meaning within its social contexts and these are expanding daily Many non Western nations have long standing musical traditions and practices that have entered into the Western mainstream just as Western practices and traditions have influenced the musical cultures of the world to produce new and exciting possibilities for music making Diversity has been a key element in the selection of topics for discussion and the examples included here can serve as gateways for other investigations by interested readers This book is a survey presenting a broad array of representative

works The personalities explored include composers performers theorists teachers and organizations In many cases the information comes directly from composers whom the author has interviewed The discussions in this book demonstrate that the world of contemporary music is a fascinating one that offers rich rewards to those interested in understanding the vibrant dynamics of concert music
