message of regeneration through violence But the transition to a healthier mythology is already underway and can be seen in the strength of an alternative trend in depictions of violence in storytelling This book examines this trend by comparing examples drawn from film and television with the traditional popular dramatic approach reflecting and promoting a culture of violence This comparison shows that attitudes toward conflict in drama are a key indicator of a shift in awareness of violence in society The book concludes with an account of increasing challenges confronting the individual in today's world and the necessity for individual producers and consumers to take greater responsibility for their choices which shape culture through omnipresent and profoundly influential screen technology     **Sea Power** ,1919     *Everybody's Magazine* ,1906
