Change and Disruption Roberta Garner, Black Hawk Hancock, 2024-10-21 Change and Disruption Sociology of the Future draws on classical and modern sociological theory to identify recent and emerging trends in the global system The book probes the rise of authoritarian states rifts in the relationship between humans and the rest of nature the coming impact of artificial intelligence and changes in work cities science and the quality of life These dynamics are explored through the animating question will the positive potential of the modern world be realized or will the human condition spiral downward Garner and Hancock employ sociological theory to

tackle big questions about the societies of the present and the societies of the future They use three powerful tools for exploration The first tool is historical analysis to reveal how our contemporary world was shaped during the early modern era the rise of capitalism colonialism and industrialization and the tumultuous 20th century The second tool is quantitative analyses of our current global conditions that show contradictory pictures of both persistent inequalities and great advances in well being The third tool is contending sociological theories that conceptualize a plurality of social forces that shape five matters of concern the state the human nature relationship work economy and technology population change migration and urbanization and the emerging self Change and Disruption offers a spirited conversation among theorists and different sociological traditions The authors take stock of the present moment one where facts are fluid and contentious in a changing historical context Garner and Hancock take up the project of Sociology as a quest for understanding our world and grappling with major new trajectories of change within and to that world This book will be of interest to scholars and students in the social sciences

Design of Effective Instagram Campaigns Carolin Wesche, 2020-04-28 Master's Thesis from the year 2018 in the subject Business economics Offline Marketing and Online Marketing grade 1.3 University of Münster Institute for Value Based Marketing language English abstract The following study investigates the influence of traditional design stimuli applied to a brand post on the consumer's engagement rate on Instagram Consumer engagement thereby represents the effectiveness of a brand post and is defined by the ratio of the number of likes of a brand post and the number of followers of the brand Aiming at analyzing the effectiveness of traditional design stimuli on Instagram the author gathers 450 Instagram brand posts from five different product categories which are subsequently assessed and coded The researcher then conducts a regression analysis as this allows to evaluate the influence of the

traditional visual design stimuli on the consumer's engagement rate. Whereas novel cognitive demanding stimuli are not found to influence the engagement rate for a brand post, certain physically intensive prominent stimuli as well as some affective emotional stimuli have a significant influence. The present study further investigates the moderating effect of brand knowledge on the magnitude of the stimuli's influence on consumer engagement rate. The results indicate that brand knowledge has a moderating effect on certain stimuli. For all other stimuli, the influence on the engagement rate does not change for different levels of brand knowledge. The results further show that design stimuli applied in brand posts on Instagram differ in their impact on the engagement rate depending on the product category shown in the brand post. These findings can be used by managers to exploit the benefits of social media marketing on Instagram. **Pitch, Tweet, or Engage on the Street** Kara Alaimo, 2025-02-28
