**The Privatisation of Higher Education in Postcolonial**

**Bangladesh** Ariful H. Kabir, Raqib Chowdhury, 2021-05-16 This book problematises contemporary realities of the political

dimension of the privatisation of higher education in Bangladesh By exploring the complexities of neoliberalism as an economic and ideological doctrine a mode of governance and as a policy package it considers the post attached to and hyphenated with colonialism as more aspirational than achieved Based on an interdisciplinary study involving contemporary theories from political and social sciences economics and the socio economics of education the book explores the unique ways in which Bangladeshi higher education has evolved over the past four decades and the complex politics behind its privatisation Through an empirically based account of how neoliberalism has worked its way through the higher education sector in the fastest growing economy in the South Asian context it discusses how changes have been characterised by policy reforms massification and a sustained friction between control and autonomy in the university sector The authors take a

nuanced approach to their geo political and onto epistemological positionalities as diasporic and hybridised scholars by rejecting epistemological exclusion inherent in the colonial present and research conducted in such contexts This position allows the reinforcement of a colonial present theorising from within Global South decolonial and postcolonial research literature This book contributes to discourses of globalisation from above and globalisation from below and sheds light on the often idiosyncratic ways in which higher education reform has unfolded in South Asia It will be of interest to comparative educators and those researching higher education policy and education developments in Global South nations *Handbook on E-marketing for Tourism Destinations* Peter Varlow,2008 The internet and other new technologies have changed the tourism industry in an unprecedented way and keeping pace has become challenging Online information is now one of the primary influences on consumer decisions in nearly all major markets For example 41 per cent of tourists arriving in Spain in 2007 had booked through the internet and in the United States the number of trips bought online exceeded those purchased offline Such changes are impacting and influencing the way destinations and companies manage and market themselves

*The Future of Journalism* Bob Franklin,2013-09-13 The future of journalism is hotly contested and highly uncertain reflecting developments in media technologies shifting business strategies for online news changing media organisational and regulatory structures the fragmentation of audiences and a growing public concern about some aspects of tabloid journalism practices and reporting as well as broader political sociological and cultural changes These developments have combined to impoverish the flow of existing revenues available to fund journalism impact radically on traditional journalism professional practices while simultaneously generating an increasingly frenzied search for sustainable and equivalent funding and from a wide range of sources to nurture and deliver quality journalism in the future This book brings together journalists and distinguished academic specialists from around the globe to present the findings from their research and to discuss the future of journalism the shifting quality of its products its wide ranging sources of finance as well as the economic and democratic consequences of the significant changes confronting Journalism *The Future of Journalism* details the challenges facing the press in contemporary societies and provides essential reading for everyone interested in the role of journalism in shaping and sustaining literate civil and democratic societies This book consists of special issues from *Journalism Studies* and *Journalism Practice* *Modern Technologies for Reshaping Libraries in the Digital Era* Sivasankar Prasad,2017-07-10 Anthology from the year 2017 in the subject Library Science Information Documentation Science University of Delhi language English abstract There are a variety of challenges facing the LIS profession owing to the rapidly changing technologies and environment in which it exists Recent developments in ICT the web and social media have led to the creation of digital resources and its access through online as well as remote login Librarians need to be tech savvy professionals who can take all their professional skills and experience and adapt them in order to align library services with the changing demands of the library user community Written by practicing library professionals and librarians this book

Levinson,2023-06-08 This book addresses the vital importance of reshoring US manufacturing capability to ensure economic and military security and then discusses the proven methods that the United States used to gain manufacturing supremacy in the first place The vital takeaway is If the job can be made sufficiently productive the per unit labor cost ceases to be relevant which means a business can pay high wages realize high profits and deliver low prices simultaneously The contest is then not between high wages and cheap labor but between efficiency and inefficiency and when automation is involved machine against machine Readers will be able to put these principles to work very quickly to achieve tangible results The relatively low Federal minimum wage has meanwhile become a major issue but inflation skyrocketed in the second quarter of 2022 when higher wages and higher demand for goods and services were not matched with higher productivity The book addresses the relationship between the money supply and the velocity of money to prices wages and productivity A manufacturing resurgence in the United States will not only increase our standard of living enormously but generate taxable economic activity that will help pay down rather than increase the Federal debt Higher productivity also delivers a greater supply of goods to accompany higher wages and thus works against inflation This can prevent looming recessions and disruptions      Broadcasting & Cable ,2008      India Today ,2008
