The volumes offer hitherto unexplored analyses of governance, political and ideological aspects along with technological characteristics in a historical framework. This volume discusses a contemporary history of democracy, ways of governing, resistance and their engagement, political economy, development and neo-liberal governance, governance as a strategy of accommodating claims and facilitating accumulation. In breaking new ground in the study of what constitutes the political subject, these volumes will be indispensable to scholars, researchers and students of politics, public administration, development studies, South Asian studies and modern India.
