Damned Englishman Tom Cox, 1975      A Treatise on Northern Ireland, Volume II Brendan O'Leary, 2019-04-17 This landmark synthesis of political science and historical institutionalism is a detailed study of antagonistic ethnic majoritarianism Northern Ireland was coercively created through a contested partition in 1920 Subsequently Great Britain compelled Sinn Féin's leaders to rescind the declaration of an Irish Republic remain within the British Empire and grant the Belfast Parliament the right to secede If it did so a commission would consider modifying the new border The outcome however was the formation of two insecure regimes North and South both of which experienced civil war while the boundary commission was subverted In the North a control system organized the new majority behind a dominant party that won all elections to the Belfast parliament until its abolition in 1972 The Ulster Unionist Party successfully disorganized Northern nationalists and Catholics Bolstered by the Specials a militia created from the Ulster Volunteer Force this system displayed a pathological version of the Westminster model of democracy which may reproduce one party dominance and enforce national ethnic religious and cultural discrimination How the Unionist elite improvised this control regime and why it collapsed under the impact of a civil rights movement in the 1960s take center stage in this second volume of A Treatise on Northern Ireland The North's trajectory is paired and compared with the Irish Free State's incremental decolonization and restoration of a Republic Irish state building however took place at the expense of the limited prospect of persuading Ulster Protestants that Irish reunification was in their interests or consistent with their identities Northern Ireland was placed under British direct rule in 1972 while counter insurgency practices applied elsewhere in its diminishing empire were deployed from 1969 with disastrous consequences On January 1 1973 however the UK and Ireland joined the then European Economic Community Many hoped that would help end conflict in and over Northern Ireland Such hopes were premature Northern Ireland appeared locked in a stalemate of political violence punctuated by failed political initiatives      **Historical Dictionary of**

*The News from Ireland* Maurice Walsh, 2011-03-24 The Anglo Irish war of 1919-1921 was an international historical landmark the first successful revolution against British rule and the beginning of the end of the Empire However the Irish revolutionaries did not win their struggle on the battlefield their key victory was in mobilising public opinion in Britain and the rest of the world Journalists and writers flocked to Ireland where the increasingly brutal conflict was seen as the crucible for settling some of the key issues of the new world order emerging from the ruins of World War One One On trial was the British Empire's claim to be the champion of civilisation as well as the principle of self determination proclaimed by the American president Woodrow Wilson The News from Ireland vividly explores the work of British and American correspondents in Ireland as well as other foreign journalists and literary figures It offers a penetrating and persuasive assessment of the Irish revolution's place in a key moment of world history as well as the role of the press and journalism in the conflict This important book is essential reading for anyone interested in Irish history and how our understanding of history generally is shaped by the media

**Empires of Print** Patrick Scott Belk, 2017-05-08 At the turn of the twentieth century the publishing industries in Britain and the United States underwent dramatic expansions and reorganization that brought about an increased traffic in books and periodicals around the world Focusing on adventure fiction published from 1899 to 1919 Patrick Scott Belk looks at authors such as Joseph Conrad H G Wells Conan Doyle and John Buchan to explore how writers of popular fiction engaged with foreign markets and readers through periodical publishing Belk argues that popular fiction particularly the adventure genre developed in ways that directly correlate with authors' experiences and shows that popular genres of the late nineteenth and early twentieth centuries emerged as one way of marketing their literary works to expanding audiences of readers worldwide Despite an over determined print space
