Dance Rituals Of Experience:

Dance Jamake Highwater, 1985 This book presents a powerful view of the history of dance contrasting its role in Western civilization with its significance in other cultures Highwater a renowned critic author and lecturer on art theater music and dance links the history of dance to cultural forces as diverse as Karl Marx and Elvis Presley Beginning with the original ritualistic and primal forms of dance he traces its decline into empty ceremonial forms while all along insisting that dance is a fundamental life impulse made visible in motion a spontaneous transformation of experience into metaphoric meaning Considering the historical and creative context from which dance emerged Highwater goes on to point out the specific contributions and cultural influences of such 20th century dance giants as Isadora Duncan Twyla Tharp Robert Wilson George Balanchine Martha Graham Alwin Nikolais Erick Hawkins Jose Limon Merce Cunningham Meredith Monk and Garth Fagan Also examined are many newer artists such as Bebe Miller and the Urban Bush Women Dance Jamake Mamake Highwater, 1978 *Dance (series)* Jamake Highwater, 1985 *Ritual, Performance and the Senses* Jon P. Mitchell, Michael Bull, 2015-02-26 Ritual has long been a central concept in anthropological theories of religious transmission Ritual Performance and the Senses offers a new understanding of how ritual enables religious representations ideas beliefs values to be shared among participants Focusing on the body and the experiential nature of ritual the book brings together insights from three distinct areas of study cognitive neuroanthropology performance studies and the anthropology of the senses Eight chapters by scholars from each of these sub disciplines investigate different aspects of embodied religious practice ranging from philosophical discussions of belief to explorations of the biological processes taking place in the brain itself Case studies range from miracles and visionary activity in Catholic Malta to meditative practices in theatrical performance and include three pilgrimage sites the Church of the Holy Sepulchre in Jerusalem the festival of Ramlila in Ramnagar India and the mountain shrine of the Lord of the Shiny Snow in Andean Peru Understanding ritual allows us to understand processes at the very centre of human social life and humanity itself making this an invaluable text for students and scholars in anthropology cognitive science performance studies and religious studies Dance Ritual and Music International Council for Traditional Music. Dance Jamake Highwater, 1978 *Ritual, Play and Belief, in Evolution and Early Human Societies* Colin Renfrew, Iain Morley, Michael Boyd, 2017-12-21 The origins of religion and ritual in humans have been the focus of centuries of thought in archaeology anthropology theology evolutionary psychology and more Play and ritual have many aspects in common and ritual is a key component of the early cult practices that underlie the religious systems of societies in all parts of the world This book examines the formative cults and the roots of religious practice from the earliest times until the development of early religion in the Near East in China in Peru in Mesoamerica and beyond Here leading prehistorians biologists and other specialists bring a fresh approach to the early practices that underlie the faiths and

religions of the world They demonstrate the profound role of play ritual and belief systems and offer powerful new insights into the emergence of early societies Visualizing Rituals Julia Werts,2006 Diverse aspects of art from its inception to its eventual display have continuously been connected to rituals and vice versa whether formally or informally As the field of critical theory has expanded over the past several decades becoming increasingly relevant to art historical discourse new methods of understanding art in relation to the individual and society have played a significant role in the conceptualization of ritual practices In addition psychoanalytic theories of identity formation as well as ideas of the fragmented post modern subject have opened up new avenues for considering the role of rituals in modern society Thus the relationship between art and ritual is wide and varied and has become a dynamic field of critical inquiry The essays presented in this compilation examine various ways in which emerging scholars are negotiating the relationship between art and ritual Drawing from numerous aspects of art historical anthropological and theoretical discourses the papers seek to address some of the questions that arise from these complex relationships and open up the possibility for new ways of defining both art and ritual The essays range in scope from the architectural forms of temples from Ancient Greece to the ritualistic return to oelblackness in the art of Kahinde Wiley Visualizing Rituals is a crucial project that creatively develops new ways of navigating the nexus between art and ritual practices Proteus ,1998 **The Dance of Jewish Woman as Torah** Cynthia D.
