Power to Rise James E. Neufeld,1996 Power to Rise is the first fully documented account of the artistic and organizational history of this remarkable Canadian cultural institution Based on archival sources many hitherto unavailable of the National Ballet of Canada and the National Archives of Canada the book includes first hand accounts of more than fifty of the personalities closely associated with the company throughout its life In Power to Rise we learn of the inhospitable environment in which the National Ballet struggled to establish itself of its close calls with bankruptcy and of its evolution into a full fledged professional company We witness the events that led to Franca s arrival from England the uncompromising and often controversial idealism of her artistic leadership the company s dramatic and sometimes perilous growth to a level that prompted the greatest dancers of the age among them Rudolf Nureyev and Erik Bruhn to come to work with company s own stars including Karen Kain and Veronica Tennant The text is illustrated with

over 140 photographs drawn from the company's enormous archives as well as from private sources that re-create the characters, settings, moods, and artistry of the company. **BOOK JACKET** Title Summary field provided by Blackwell North America Inc. All Rights Reserved. **The Humanities** Ron Blazek, Elizabeth Smith Aversa, 2000. Covering nearly 1,400 information sources, this book maps the vast terrain of knowledge in humanities studies. Detailed annotations give users an in-depth view of the sources and thorough indexes provide easy access. Web resources are included on a highly selective basis. The number of information sources and the diversification of formats are revolutionizing library and scholarly practice. While accessing information is easier, evaluation of resources has become increasingly more difficult. Covering a broader territory and more sources than previous editions, this book offers an up-to-date, reliable guide to nearly 1,400 of the most important and representative information sources in the immense discipline of humanities studies. Following the basic organization of previous editions, Blazek and Aversa present chapters on sources, reference tools, and access ways to find and retrieve information for each subject covered, e.g., language and literature, philosophy, visual arts. For the first time, the authors have included web resources and their URLs on a highly selective basis. All sources have been reviewed, updated, and in many cases expanded. Computerized databases, both online and CD-ROM, are integrated with the books. Detailed annotations give users an in-depth view of the sources and thorough indexes provide easy access. *Martha Graham* Russell Freedman, 1998. A photo biography of the American dancer, teacher, and choreographer who was born in Pittsburgh in 1895 and who became a leading figure in the world of modern dance.

Undimmed Lustre Muriel Topaz, 2002. *Undimmed Lustre: The Life of Antony Tudor* is a chronological biography of one of the most creative forces in dance of the 20th century. Born in 1908 in London, Tudor was raised in a lower middle-class family on the streets of London's meat market district. Although he had no formal exposure to dance, he spent the first decade of his professional life as one of the founding members of the Ballet Rambert. In America, he became an all-important force and a prime mover in American Ballet Theatre for the most of its early history. His contributions to the development of the art of the classical ballet are inestimable; for he single-handedly introduced a new direction into the ballet world. Tudor imbued the simplest gesture with profound meaning, bringing drama into academic ballet by mixing classical vocabulary, Freudian ideas, and Stanislavskian methodology and cinematic techniques into his dances. Tudor's enigmatic personality, his English propriety mixed with his rapier-sharp and often vulgar wit, his insecurities, and his total inability to compromise artistically, all made him a controversial figure in the very communal dance world. This book, written by Muriel Topaz, student, colleague, notator, assistant, and long-time friend of Tudor's, reveals the misconceptions and contradictions that have attached themselves to the artist. Based on never-before-seen personal archives, correspondence, and copious interviews, as well as grant-supported research conducted in England, the United States, Sweden, Australia, Israel, Japan, and France, this work is a wonderful resource for dance teachers and students or anyone interested in classical ballet. **Subject Guide to Books in Print**
