Dancing With Cancer:

Dancing Cancer Linda McDonald, 2010-02 Dancing Cancer is a children's book that offers hope and support to all those touched by cancer. The author shares her long time survivorship cancer story. It is about a little girl who had her first cancer at age three. She loved to dance and move. Even though her cancer returned, she continued to follow her hopes and dreams. Good medical help, diet, exercise, positive attitude, and faith all lead to her healing. It is an inspirational book that encourages one to have faith and follow their dreams.

Dancing with Cancer Judy Erel, 2018-02-06 Combining the personal and the practical, this book mixes the author's own cancer story with the tools she discovered and adapted to support her treatment. The wisdom and knowledge that Judy has learned from her experience with cancer can be our guide and coach. Bernie Siegel MD, Author of *Love Medicine Miracles* and *The Art of Healing*. *Dancing with Cancer* focuses on the creation of a positive and proactive mindset with which to face the specific challenges and stages of cancer. It combines the author's own experience of using what she calls Thought Work, including creative self-expression, healing energy work, and meditation, with conventional cancer treatment in order to connect her intentions for healing to the everyday reality of a diagnosis of incurable bone marrow cancer. The book offers guidance and inspiration not only to cancer sufferers as they undergo the various stages of treatment but also to those supporting them, enabling them to understand better the experience of the cancer patient as well as the possibilities of mind/body empowerment. Part I allows the reader to gain inspiration and reassurance from Judy's personal cancer story as well as put into practice her Thought Work suggestions, which include revelatory questionnaires and journaling, creative exercises such as drawing, healing mandalas, and guided meditations. Part II gives a more detailed description of the Thought Work tools, including instructions for setting healing intentions, for using mindful breathing, and for cultivating an attitude of gratitude, as well as meditations for a range of cancer situations and step-by-step instructions for creating artworks. Throughout the book are examples of Judy's own transformative artworks, which she offers along with the reminder that any creative self-expression can be healing; it is not the outcome but the physical process of doing that matters, enabling multi-level transformation.

Dancing Through Cancer Laurie Riddell Geary, 2013-07-01 You have lung cancer. My surgeon had just called to tell me this after reading my chest x-ray taken in preparation for a scheduled breast lumpectomy. I remember standing all alone in my condo, holding the phone in shock, having my first out-of-body experience, thinking, "This isn't real, this isn't happening to me. I am a non-smoker, there was no family history of lung cancer, and I had always lived a healthy lifestyle, or so I thought." In this book, I share with you all the shocking lung cancer facts that I have learned. There are numerous posts on nutrition, espousing the importance of eating a plant-based, sugar-free diet for prevention and healing. I discuss stress management, risk-taking, alternative healing modalities, and the joys of travel. I share my experiences dealing with medical/surgical treatments and managing medication side effects. I also share my fears and challenges, my feelings, and values. I offer my learnings and coachable moments. I delve into my spiritual quest and share my thoughts on death and dying.

I acknowledge my wonderful support system and how important they are in helping me get through it all. Mostly I explain why and how I am Dancing Through Cancer. This book will be helpful to cancer patients, their caregivers, and to anyone who wants to learn how to prevent cancer from happening to them. **Dancing with Cancer** Diana Brueton, 2014-02-28. Diana had never been ill and on diagnosis she stepped into a parallel world of waiting rooms, treatments, friends, and family who supported or fled as life became both exquisitely precious and terrible. Dancing with Cancer is a human drama, a ride on the roller coaster of hope and despair, and as the gradients became gentler, a journey through meditation and creativity to wisdom and acceptance. **SOCIAL AND SPIRITUAL DANCING IN CANCER** Vera Eikon, 2013. The presence of cancer cells that is now called a disease does not just grow overnight. Chemotherapy alone cannot cure the disease either. My mother believed these too. She once pacified a stage 4 breast cancer diagnosis and defied the odds as her disease went into remission. A strength-based model, specifically the psychological process of family resilience, became a guiding framework as I and my mother chose to take a positive stance in the midst of a threatening situation. In addition to recognizing family strengths and resources, this book also focuses on the significance of positive relationships within the community. The interplay of resilient characteristics is highlighted while at the same time recognizing actual and real challenges that come along with a cancer experience: the silent struggles toward social issues that all had an impact in my mother's disease. Yet cancer can be a gateway to heal and to evolve one's consciousness in the process. It is a consciousness that is inherent to each but is usually dormant and unrecognized. This can allow both the person with cancer and other family members to be positively transformed by the illness, an opportunity and gift of cancer. In this book I do not speak as an expert but as an observer of my own life and my environment as I attempt to document my mother's cancer experience. The time I became her immediate caregiver during initial cancer treatments and until she was re-integrating into the community as a woman diagnosed with cancer. Vera Eikon. A blend of scholarly research, spirituality, and personal experience shapes this memoir of growth and loss when coping with cancer. A poignant mother-daughter story that adds a personal touch to the science of suffering. Kirkus Review, November 30, 2012. Dancing with Cancer Robert E. Elliott, 1995-01-01. Dancing with Cancer Loui Tucker, 2004-04-01. It all started as an easier way to answer all the e-mails expressing concern and asking questions about her breast cancer diagnosis and treatment. When Loui Tucker tired of typing the same responses or copying the same paragraphs, she started writing and sending one e-mail update per week every Sunday night for almost ten months. Those weekly essays became a real-time journey shared by hundreds of readers. While writing about the physical problems associated with cancer treatment, she educated them about drug therapies and their side effects, mammograms, and alternative medicine. More importantly, she opened a window into her heart and soul and let others learn the lessons, find the humor, and savor the victories along the way. This isn't a book about surviving cancer; it's about thriving. It's a book written with candor, forthrightness, and conviction. It's a book about cancer that's inspirational, compelling, joyful, and intensely honest. **Dancing with Cancer and How I**
