Dangerous Silence:

SUCH A DANGEROUS SILENCE. HARRY. KOUMROUYAN,2023 *Dangerous Silence* Donald A. MacKenzie (Schriftsteller),1960 **Dangerous Silence** D. Mac Kenzie,1962 *Violence in America* Robert Klein,Victor Schermer,2018-10-11 Violence is a growing problem in American society and hardly a day goes by that we don't hear about yet another heart wrenching episode of mass violence Such events unfortunately are only the most public manifestation of violence in America The full nature and extent of daily violence the various and pervasive forms it takes and the enormous social emotional moral and economic consequences that result remain largely outside of our awareness More importantly our ability to identify the root causes and know how best to effectively intervene remains limited Most investigations in this field have focused on the individual psychodynamic characteristics of the perpetrators The underlying group dynamic factors that include consideration of broader social cultural socioeconomic and historical variables have received less attention This volume brings together for the first time a collection of distinguished group psychotherapists all of whom have been trained to recognize both individual psychodynamic characteristics and group dynamic factors to apply the lessons learned through years of clinical practice to arrive at a deeper understanding of the etiology treatment and prevention of violence This book was originally published as a special issue of the International Journal of Group Psychotherapy *The Intrapreneurship Formula* Sandra Lam,2023-01-02 The Intrapreneurship Formula is a practical guide for corporate leaders and managers who aspire to drive corporate innovation The world we are in today is experiencing an acceleration of technological advancement More companies are facing disruptions Companies must innovate to survive 80% of the leaders know the importance of innovating but most do not know where to start What they don't know is they already have the crucial asset of innovation in their organization their employees The question is how to activate the employees to innovate This book provides a simple and actionable framework that leaders can apply to drive corporate entrepreneurship It's a playbook with tools and tested methodologies including Design Thinking Lean Startup Agile etc a must read for anyone working on innovation in medium to large size companies The framework and tools when implemented will help the company constantly come up with innovation and capture growth *The Fearless Organization* Amy C. Edmondson,2025-10-22 Conquer the most essential adaptation to the knowledge economy The Fearless Organization Creating Psychological Safety in the Workplace for Learning Innovation and Growth offers practical guidance for teams and organizations who are serious about success in the modern economy With so much riding on innovation creativity and spark it is essential to attract and retain quality talent but what good does this talent do if no one is able to speak their mind The traditional culture of fitting in and going along spells doom in the knowledge economy Success requires a continuous influx of new ideas new challenges and critical thought and the interpersonal climate must not suppress silence ridicule or intimidate Not every idea is good and yes there are stupid questions and yes dissent can slow things down but talking through these things is an essential part of the creative process

People must be allowed to voice half finished thoughts ask questions from left field and brainstorm out loud it creates a culture in which a minor flub or momentary lapse is no big deal and where actual mistakes are owned and corrected and where the next left field idea could be the next big thing This book explores this culture of psychological safety and provides a blueprint for bringing it to life The road is sometimes bumpy but succinct and informative scenario based explanations provide a clear path forward to constant learning and healthy innovation Explore the link between psychological safety and high performance Create a culture where it s safe to express ideas ask questions and admit mistakes Nurture the level of engagement and candor required in today s knowledge economy Follow a step by step framework for establishing psychological safety in your team or organization Shed the yes men approach and step into real performance Fertilize creativity clarify goals achieve accountability redefine leadership and much more The Fearless Organization helps you bring about this most critical transformation Reading War, Making Memory Tea Sindbæk Andersen, Jessica Ortner, Fedja Wierød Borčak, 2025-11-01 In the fields of literary and memory studies the cultural impact of the Bosnian War of 1992 1995 appears despite the scale of devastation somewhat minimal Reading War Making Memory focuses on how authors from the diaspora of the former Yugoslavia have transmitted and translated the realities of the war in their fiction illuminating how these texts interpolate the culture and memory of Bosnia Herzegovina into an act of mnemonic migration Drawing from close readings studies of public reception and focus group interviews this volume explores the attempt to reshape social frameworks of memory and the wider reception and impact of memory making literature across Europe **A Hand-book of Proverbs** Henry George Bohn, 1888 **Preaching to a World in Crisis** Horton Davies, 2009-02-01 This second volume of sermons appearing after Believing is organized according to Davies s journey in time and space and his first hand experience of the troubled world on three continents Word War II in England and Germany race relations in South Africa and the need for Human Rights in America In addition to history literature psychology and lore the sermons mainly use argumentation to console the heart and show the way to compassion and justice in the name of Christ **Building Beloved Community** The United Methodist Church Council of Bishops, 2025-10-21 Building beloved communities where division cannot stand When fear and division threaten to take hold faith communities face a pivotal choice give in or rise to embody God s radical love and build inclusive united communities Building Beloved Community a call to action from the United Methodist Council of Bishops equips readers with theological insight practical strategies and inspiring global stories to resist division and foster connection Drawing on experiences from Ukraine the Philippines Guatemala and beyond it reveals common patterns of authoritarianism and offers faithful alternatives grounded in love over fear Rooted in Wesleyan theology this resource guides readers in navigating tough conversations creating safe spaces engaging in compassionate action and building networks of solidarity Reflection questions at the end of each chapter encourage deeper study and meaningful engagement Addressing forces such as Christian nationalism racism and extremism Building Beloved Community underscores the urgent need for

social healing and the church's role in building just grace filled communities Whether you are a faith leader congregant seminary student or activist this book offers hope guidance and a vision for living faithfully in challenging times Together we can reject fear and division to create communities rooted in justice love and care
