Dangerousness Probability And Prediction Psychiatry And Public Policy:

Dangerousness Christopher D. Webster, Mark H. Ben-Aron, Stephen J. Hucker, 1985 In the last twenty years the clinical prediction of dangerous behaviour has become an increasingly contentious issue in psychiatry Several studies have called into serious question the ability of mental health professionals to predict the possible future dangerous behaviour of their clients These results have caught the attention of lawyers and been cited in several challenges to individual practitioners Psychiatrists and psychologists have had to realize that if they claim predictive competence they will be called on to accept the legal and ethical consequences *Dangerousness* represents a much needed attempt to draw together the most recent views of the legal scholars social scientists and clinicians who have thought most deeply about these problems It aims to help the reader decide what degree of responsibility the mental health professions should accept as they offer influential opinions which on the one hand may result in unfair confinement of patients and prisoners but on the other may expose society to unwarranted risk

Dangerousness Christopher D. Webster, 1985 **The Essential Handbook of Offender Assessment and Treatment** Clive R. Hollin, 2005-01-21 This Essential Handbook provides the critical elements from its companion volume the successful Handbook of Offender Assessment and Treatment A comprehensive review of assessment and treatment it covers the major offender groups sex offenders violent offenders offenders with mental and personality disorders and property offenders A range of treatment approaches are also included incorporating behavioural cognitive skills based anger management school programs and family based approaches Whilst retaining its international high quality appeal The Essential Handbook of Offender Assessment and Treatment is a concise portable edition for all clinicians academics and researchers working with offenders across a range of settings

Law and Mental Health David N. Weisstub, 2013-10-22 *Law and Mental Health International Perspectives Volume 3* considers the jurisprudence and models of legislation concerning public mental health that suit the particular requirements of different cultural and geographical regions This book is composed of five chapters and begins with the major accomplishment both for Dutch legal psychiatry and for the English language audience followed by a survey of the civil dimensions of the forensic system The next chapter tackles the primary variables in assessing terrorism including the social political religious and economic factors which coupled with highly complex variables of psychological predisposition can give some guarded inroads with respect to the limits of the knowledge in predicting and reacting to terrorist incidents These topics are followed by discussions on the techniques for assessment designed for the differentiated legal questions in criminal civil and juvenile and family law A chapter focuses on the measured assessments of the parameters of the professional knowledge about the nature of dangerous behavior based on clinical and research investigation The final chapter contains a precise summary of the research that is to be done on a spectrum of techniques for assessing malingering Mental health workers forensic experts and policy makers will find this book invaluable

Stalking Crimes and Victim Protection Joseph A. Davis, 2001-06-26 Although stalking is an age old

phenomenon it is only recently receiving due attention In a span of just ten years all fifty states have passed anti stalking legislation For the first time Stalking Crimes and Victim Protection Prevention Intervention Threat Assessment and Case Management brings together in one source all the research done Impulsivity Christopher D. Webster, Margaret A. Jackson, 1997-06-20 Impulsivity features prominently in contemporary descriptions of many psychiatric disorders and is also a key element in the clinical risk assessment of violence Thoroughly examining the nature assessment and treatment of impulsive conduct this up to date volume brings together contributions from prominent researchers and clinicians in both mental health and correctional settings Chapters illuminate our current understanding of impulsive behavior from conceptual legal and biological perspectives and address the challenges of describing and measuring it With special emphasis on how the likelihood of future violent or destructive behavior can best be gauged in specific cases the volume includes several newly developed risk assessment tools Impulsivity also provides an invaluable overview of the current state of the research and delineates a broad clinically pertinent agenda for future study Impulsivity is an invaluable resource for clinicians working in private practice correctional facilities health care settings and community based programs It also serves as a primary or supplementary text for advanced undergraduate and graduate level courses **Clinical Forensic Psychology and Law** Kaitlyn McLachlan, 2019-01-15 Clinical Forensic Psychology and Law is a compilation of recent and classic articles providing comprehensive coverage of the field of clinical forensic psychology and law Selected articles sample the major areas of the discipline including criminal and civil forensic assessment forensic treatment youth assessment and intervention and professional and ethical issues in forensic practice The volume is designed for use by scholars graduates and undergraduates in psychology and law schools **Essential Writings in Violence Risk Assessment and Management** Christopher D. Webster, Hy Bloom, 2007 With Essential Writings in Violence Risk Assessment and Management mental health and legal practitioners have quick access to the most important peer reviewed writings in the field The 31 journal articles and book chapters in this collection provide a complete foundational curriculum on the subject Topics include the historical shift from dangerousness to violence risk assessment the emergence of actuarial violence prediction clinical prediction and assessment the actuarial versus clinical controversy decision making treatments security and program planning Covering a field that crosses civil forensic and correctional boundaries this book is a valuable resource for clinicians lawyers judges law enforcement officials health and correctional administrators journalists and anyone working in the forensic system It is also of interest to anyone intrigued by how the forensic system assesses and manages people deemed to be violent and how decision makers manage the often precarious balance between protecting the public and according the accused the greatest degree of freedom possible The book s six main sections are preceded by introductions written by the editors that succinctly encapsulate the main arguments discussed by its contributors Taken together these introductions provide a concise summary of a complex topic *Clinical Approaches to Violence* Kevin Howells, Clive R. Hollin, 1989 The papers in this collection

discuss approaches to clinical treatment in which the focus is on the individual and on psychological methods of producing change Assessing Dangerousness Jacquelyn Campbell, 1995 Research and clinical expertise are brought together in this practical volume to examine whether the following violence can be predicted battered women being killed by their partners battered women killing their partners children being physically and or sexually abused and sexual offenders and batterers re offending Following an introduction to theoretical and clinical issues involved in the prediction of violence the contributors present research and theory in language that is accessible to clinicians They discuss accurate measurement using tested instruments the role of clinical observations and health and judicial implications *The British Journal of Psychiatry* ,1990

Canadian Journal of Psychiatry ,2005 **Bulletin of the American Academy of Psychiatry and the Law** American Academy of Psychiatry and the Law,1996 *Pathways to Criminal Violence* Neil Alan Weiner, Marvin Eugene Wolfgang, 1989-02 The focus of this book is on research about correlates and causes of criminal violence and remedial responses to such violence The contributors scrutinize significant research topics such as drugs alcohol sexual violence mental disorder violence breeding violence and the effects of criminal violence on victims The editors review assess and press beyond the research and theoretical accomplishments of the last two decades in order to stimulate renewed dialogue about how to most beneficially continue or redirect research theoretical and policy efforts Criminal Justice and the Mentally Disordered Jill Peay, 1998 The International library of Criminology Criminal Justice and Penology is an important publishing initiative that brings together the most significant contemporary published journal essays in current criminology criminal justice and penology **Canadian Journal of Criminology** ,1990 *Coping with Psychiatric and Psychological Testimony: Special topics* Jay Ziskin, 1995 **The American Journal of Forensic Psychiatry** ,1987 **Florida Law Review** ,2017-07 **Directory of Published Proceedings** ,1992
