## **Dangers Of Co Deployment Un Co Operative Peacekeeping In:**

**Dangers of Co-deployment** David J. Francis, 2005 Tracing the evolution of UN peacekeeping this engaging volume explores its historical background and by way of pertinent case studies focuses on the changing nature of UN peacekeeping with particular reference to Africa a continent that has been instrumental in shaping theory and practice The concept of co deployment between the UN and regional sub regional organizations is constantly evolving and is therefore studied in detail here In this context case studies of co deployment such as Britain s IMAT France s RECAMP and America s ACRI enable the authors to ascertain how they link to regional peacekeeping efforts in Africa The book provides a comprehensive and critical analysis of the capacity of the African Regional Intergovernmental Organizations in collective security peacekeeping conflict management and resolution and the collaboration between the UN and ECOWAS in Liberia and Sierra Leone

**The Role of Women in Making and Building Peace in Liberia** Anne, 2014-04-15 In the early 2000s Liberian women wearing wrap skirts and white T shirts shouting We want peace no more war attracted international attention After almost fifteen years of civil war the enduring active multifaceted and non violent campaigning for peace by women s organisations contributed to the end of the fighting and the signing of a peace agreement between the warring factions Although it is widely assumed that women s inclusion in peace processes yields greater attention to women s issues and needs in the aftermath of a conflict this is only partly the case in Liberia Thus this analysis looks beyond the extraordinary commitment by women in Liberia and deals with the questions to what extent their role in the peace process has contributed to gender sensitive outcomes in post conflict Liberian society and why greater gender sensitivity was not achieved By focusing on manifestations of patterns of masculinity in the public and private spheres Anne Theobald identifies factors at different levels of analysis within different time frames that elucidate the unexpected outcome Not only does this provide for a more encompassing understanding of dynamics of gender relations and context specific variables impeding gender sensitivity in post conflict settings but it also helps to refine prevailing theoretical approaches on gender in peacemaking and peacebuilding and to develop more holistic context specific and efficient policy approaches which can effectively lead to gender sensitive peace

*Civil Wars and Third-Party Interventions in Africa* Audrey Mattoon, 2017-01-20 This book explores the impact and efficiency of Western intervention in African civil wars Emphasizing the relational conditions to the study of interventions it posits the importance of historical institutional relationships not just in the decision to intervene but also in the process of intervention and its outcome Drawing from case studies of American and European intervention in Sierra Leone C te d Ivoire and Mali the author applies a multi method research design to identify the role colonial legacy plays in shaping the success of interventions Her analysis concludes that the relational context of interventions helps determine the likelihood of success and that not all states are appropriately equipped to intervene in all civil wars which is not simply a function of defense spending on materials This book thus speaks to both academics and policy makers specializing in conflict resolution and conflict dynamics in modern

African civil wars      **Uniting Africa** David J. Francis, 2017-05-15 Plagued by bloody wars and armed conflicts political instability communal violence and displaced persons and at the mercy of natural catastrophes such as drought and famine it is not surprising that the Western press has long dismissed Africa as the hopeless continent In the face of these challenges Africa today is faced with a stark choice either unite or perish The debate on why and how the continent should unite in terms of co operative peace security and development is more urgent than at any other time in Africa s post colonial history Moving forward from the failure of the earlier typically idealistic Africa unity project David Francis demonstrates how peace and security challenges have created the imperative for change He argues that a series of regional peace and security systems are emerging and that states that have participated in practical experiments in regional peacekeeping peace support operations conflict stabilization management and preventive diplomacy are building de facto systems of peace and security that could be institutionalized and extended      *The Politics of Humanitarian Technology* Katja Lindskov

Jacobsen, 2015-06-05 This book offers a detailed exploration of three examples of humanitarian uses of new technology employing key theoretical insights from Foucault We are currently seeing a humanitarian turn to new digital technologies such as biometrics remote sensing and surveillance drones However such humanitarian uses of new technology have not always produced beneficial results for those at the receiving end and have sometimes exposed the subjects of assistance to additional risks and insecurities Engaging with key insights from the work of Foucault combined with selected concepts from the Science and Technology Studies literature this book produces an analytical framework that opens up the analysis to details of power and control at the level of materiality that are often ignored in liberal histories of war and modernity Whereas Foucault details the design of prisons factories schools etc this book is original in its use of his work in that it uses these key insights about the details of power embedded in material design but shifts the attention to the technologies and attending forms of power that have been experimented with in the three humanitarian endeavours presented in the book In doing so the book provides new information about aspects of liberal humanitarianism that contemporary critical analyses have largely neglected This book will be of interest to students of humanitarian studies peace and conflict studies critical security studies and IR in general      **The Academy Journal of Defence Studies** , 2009-02      *Symposium* , 2008
