Daniel Defoe A Collection Of Critical Essays Twentieth Century Views:

Daniel Defoe Max Byrd, 1976 Contemporary critical opinion and commentary on Daniel Defoe and his novels Includes a chronology notes and bibliography **Across the Lines** ,2022-05-16 This third volume of ASNEL Papers covers a wide range of theoretical and thematic approaches to the subject of intertextuality Intertextual relations between oral and written versions of literature text and performance as well as problems emerging from media transitions regionally instructed forms of intertextuality and the works of individual authors are equally dealt with Intertextuality as both a creative and a critical practice frequently exposes the essential arbitrariness of literary and cultural manifestations that have become canonized The transformation and transfer of meanings which accompanies any crossing between texts rests not least on the nature of the artistic corpus embodied in the general framework of historically and socially determined cultural traditions Traditions however result from selective forms of perception they are as much inventions as they are based on exclusion Intertextuality leads to a constant reinforcement of tradition while at the same time intertextual relations between the new literatures and other English language literatures are all too obvious Despite the inevitable impact of tradition the new literatures tend to employ a dynamic reading of culture which fosters social process and transition thus promoting transcultural rather than intercultural modes of communication Writing and reading across borders becomes a dialogue which reveals both differences and similarities More than a decolonizing form of deconstruction intertextuality is a strategy for communicating meaning across cultural boundaries *Robert Penn Warren, a Collection of Critical Essays* Richard Gray, 1980 The Autonomy of the Self from Richardson to Huysmans Frederick Garber, 2014-07-14 Frederick Garber studies in a wide range of English French German and American literary texts instances of the struggle for the self's autonomy during the period preceding modernism In tracing a pattern that changes from the unsettling of bourgeois conditions in Richardson to the collapse of that challenge in the Decadents he demonstrates that this period is characterized by a pervasive dialectic of aloofness and association Originally published in 1982 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Daniel Defoe, an Annotated Bibliography of Modern Criticism, 1900-1980** John A. Stoler, 1984 **Solitude and its Ambiguities in Modernist Fiction** E. Engelberg, 2016-04-30 In this study of solitude in high modernist writing Edward Engelberg explores the ways in which solitude functions thematically to shape meaning in literary works as well as what solitude as a condition has contributed to the making of a trope Selected novels are analyzed for the ambiguities that solitude injects into their meanings The freedom of solitude also becomes a burden from which the protagonists seek liberation Although such ambiguities about solitude exist

from the Bible and the Ancients through the centuries following they change within the context of time The story of solitude in the twentieth century moves from the self's removal from society and retreat into nature to an extra social position within which the self confronts itself A chapter is devoted to the synoptic analysis of solitude in the West with emphasis on the Renaissance to the twentieth century and another chapter analyzes the ambiguities that set the stage for modernism Defoe's Robinson Crusoe Selected works by Woolf Mann Camus Sartre and Beckett highlight particular modernist issues of solitude and how their authors sought to resolve them
