Work Less Jon Peirce, 2024-01-02 You can't have a healthy economy with an unhealthy work force *Work Less* proposes ways to reduce work hours and keep workers happier healthier and more productive Recent years have revealed just how stressed out many workers are While the trend to longer hours has been developing for several decades the trend's effects have been aggravated during the pandemic by the growing use of Zoom and other new technologies for meetings with clients customers and co-workers Exhausted and fed up today's workers are starting to insist on shorter hours and greater flexibility as to where they do their work There is growing consensus that the forty hour week the norm since the 1940s has outlived its usefulness And there is an urgent need for new work schedules that adequately reflect the far greater intensity of work today as well as the greater family demands on a labour force made up of almost fifty percent women who bear the brunt of domestic duties *Work Less* offers practical scheduling suggestions to employers and workers and numerous policy options for government policy makers to improve working conditions *Manpower*, 1974 Professional Feature Writing Bruce Garrison, 2023-05-30 *Professional Feature Writing* provides an essential introduction to the basics of news media feature writing and establishes a solid foundation for students and writers making feature writing their careers This sixth edition offers a thorough and up to date look at newspapers magazines newsletters and online publications with emphasis on daily newspapers consumer magazines and online news Special attention is paid to writing skills feature story types and the collegiate and professional writing life and the text is filled with practical guidance for writing a wide variety of features drawing on insights from both junior and experienced writers editors and publishers Alongside a solid tour of forms and approaches to feature writing the author includes lists of tips observations guidelines sources and story ideas New to this edition are Three chapters covering interviewing and observation in features social media in feature writing and writing social trends features Updated international examples of feature writing integrated throughout the text Additional and expanded discussion about writing features for online publications and the uses of social media in gathering information and reporting Increased attention to multimedia and the impact of new technologies on the industry Building on introductory writing and reporting skills this text is appropriate for upper division journalism students learning feature writing and advanced writing topics It will also serve as a valuable resource for freelance writers *Planning and the Multi-local Urban Experience* Kimmo Lapintie, 2022-05-11 The starting point of this book is the observation that there is a discrepancy between the lived reality of human beings and the fabricated planned and governed reality of the state apparatus at both the local and national level The book posits multi locality as an emerging spatial configuration The author draws from various theoretical sources such as Deleuze and Guattari's concepts of state or royal science the Nietzschean critique of idealism H. Gerstnád's time geography Hintikka's theory of modalities Lefebvre's urban society Castel's network society Foucault's concept of heterotopia and Bhaskar's and Sartre's theories of presence and absence He also discusses the implications of Faludi's post

territorialist critique of planning and governance and of the failure to operationalise the concept quantitatively basing his arguments in the lived experiences of multi locals as well The novelty of the book is how it analyses multi locality from such a wide theoretical perspective what is the nature and meaning of the different multiple and coexistent places for people and how is this spatial transformation related to their mobility everyday practices and work How does the presence and absence of places form their identity and their citizenship He also addresses the inconsistency between multi locality and traditional statistics and the planning and governance practices based on the assumption of unilocality and discusses the implications of this incongruity The book will be of interest to scholars in urban studies and planning theory as well as practitioners
