Jaretha Joy Jimena-Palmer PhD, 2017-11-29 This is a literary study of the seventeenth century pamphlets and sermons delivered to the Long Parliament by Stephen Marshall a leading English Puritan Marshall was known as preacher to the Long Parliament and for his participation in the further reformation of the English Church in the 1640s His understanding of the role of civil magistracy was deeply rooted in his concept of the English Reformation He was convinced that the constitutional changes during the sixteenth century English Reformation defined the role of civil magistrates The King became the Supreme Head of the English Church and the civil magistracy consisting of King or Queen in Parliament had the responsibility to spearhead the reformation of the English Church He also insisted that restoring godly preaching and teaching in every local church would eventually complete the English Reformation Marshall also argued that the Henrician schism paved the way for England to become a Christian Commonwealth where the Church is lodged whose characteristic was the unity among the people of God This implied that in England Presbyterians Independents and Erastians all belonged to one body of Jesus Christ the Head of the Church In a Christian Commonwealth civil magistracy was a divine institution and had the highest power of ordering and governing the church according to Marshall It was the civil magistracys responsibility to protect and to take care of Gods people in all godliness And in order to do so magistrates should be rightly informed from the Word of God Though Marshall showed his opposition to King Charles Is political innovation that precipitated an unfortunate war in 1642 his vision of a Christian Commonwealth where English magistracy consisting of the King or Queen in Parliament did not change If the king could be persuaded to agree with the ecclesiastical reform Puritans proposed through Parliament he would still be an instrument of reform *Sources and Debates in English History, 1485 - 1714* Newton Key, Robert Bucholz, 2009-02-02 Designed to accompany the survey text *Early Modern England 1485 1714* this updated and expanded Sourcebook brings together an impressive array of Tudor Stuart documents and illustrations as well as extensive bibliographies and research and discussion guides New edition contains 50 new documents more explanatory text illustrations biographical background and study questions Wide range of documents from both manuscript and print sources and from transcripts of private and public life Editorial material introduces students to the critical context chapter

Clerical Marriage and the English Reformation Helen L. Parish, 2017-07-05 This volume is an examination of the debate over clerical marriage in Reformation polemic and of its impact on the English clergy in the second half of the sixteenth century Clerical celibacy was more than an abstract theological concept it was a central image of mediaeval Catholicism which was shattered by the doctrinal iconoclasm of Protestant reformers This study sets the debate over clerical marriage within the context of the key debates of the Reformation offering insights into the nature of the reformers attempts to break with the Catholic past and illustrating the relationship between English polemicists and their continental counterparts The debate was not without practical consequences and the author sets this study of polemical arguments alongside an analysis of the response of clergy in several English dioceses to the legalisation of clerical marriage in 1549 Conclusions are based upon the evidence of wills visitation records and the proceedings of the ecclesiastical courts Despite the printed rhetoric dogmatic certainties were often beyond the reach of the majority and the author's conclusions highlight the chasm which could exist between polemical ideal and practical reality during the turmoil of the Reformation
