Debating the Origins of the Cold War Ralph B. Levering, Vladimir O. Pechatnov, Verena Botzenhart-Viehe, Earl C. Edmondson, 2002-03-26 Debating the Origins of the Cold War examines the coming of the Cold War through Americans and Russians contrasting perspectives and actions In two engaging essays the authors demonstrate that a huge gap existed between the democratic capitalist and global vision of the post World War II peace that most Americans believed in and the dictatorial xenophobic and regional approach that characterized Soviet policies The authors argue that repeated failures to find mutually acceptable solutions to concrete problems led to the rapid development of the Cold War and they conclude that given the respective concerns and perspectives of the time both superpowers were largely justified in their courses of action Supplemented by primary sources including documents detailing Soviet espionage in the United States during the 1930s and 1940s and correspondence between Premier Josef Stalin and Foreign Minister V M Molotov during postwar meetings this is the first book to give equal attention to the U S and Soviet policies and perspectives Debating the Origins of the Cold War Ralph B. Levering, Verena Botzenhart-Viehe, Vladimir O. Pechatnov, 1999 America in the Cold War William T. Walker, 2014-01-22 Including extensive balanced information keen insights and helpful research tools this book provides a valuable resource for students or general readers interested in American policy diplomacy and conduct during the Cold War The Cold War not only comprised the dominant theme in American foreign policy during the second half of the 20th century its influence was also imbedded into American culture The half century duration of the Cold War was an extended learning period during which the United States found that it could no longer remain an isolationist nation in a complex quickly evolving and dangerous world This book covers the entire scope of the Cold War from its background and origins before and after World War II to the collapse of the Soviet Union on December 25 1991 providing coverage of key events and concepts such as the containment policy McCarthyism the Cuban Missile Crisis the Vietnam War and nuclear arms policies The single volume work also provides an annotated bibliography primary documents and biographies of key personalities during

the Cold War such as John Foster Dulles J Edgar Hoover George F Kennan Henry Kissinger Edward R Murrow and Ronald Reagan

The Other Cold War Heonik Kwon,2010-12-06 In this conceptually bold project Heonik Kwon uses anthropology to interrogate the cold war s cultural and historical narratives Adopting a truly panoramic view of local politics and international events he challenges the notion that the cold war was a global struggle fought uniformly around the world and that the end of the war marked a radical universal rupture in modern history Incorporating comparative ethnographic study into a thorough analysis of the period Kwon upends cherished ideas about the global and their hold on contemporary social science His narrative describes the slow decomposition of a complex social and political order involving a number of local and culturally creative processes While the nations of Europe and North America experienced the cold war as a time of long peace postcolonial nations entered a different reality altogether characterized by vicious civil wars and other exceptional forms of violence Arguing that these events should be integrated into any account of the era Kwon captures the first sociocultural portrait of the cold war in all its subtlety and diversity

Levering,2016-02-16 Now available in a fully revised and updated third edition The Cold War A Post Cold War History offers an authoritative and accessible introduction to the history and enduring legacy of the Cold War Thoroughly updated in light of new scholarship including revised sections on President Nixon s policies in Vietnam and President Reagan s approach to U S Soviet relations Features six all new counterparts sections that juxtapose important historical figures to illustrate the contrasting viewpoints that characterized the Cold War Argues that the success of Western capitalism during the Cold War laid the groundwork for the economic globalization and political democratization that have defined the 21st century Includes extended coverage of the Cuban Missile Crisis the most dangerous confrontation of the nuclear age thus far

The Cold War and Soviet Mistrust of Churchill's Pursuit of Détente, 1951-1955 Uri Bar-Noi,2008 The release of previously unavailable Soviet archives has allowed a re examination of Anglo Soviet relations during Churchill s peacetime administration with special emphasis on the Kremlin s motivation for resisting the Prime Minister s attempts to end the Cold War Throughout 1951 55 the time was not yet ripe for detente the USSR and Western powers were less than willing to accommodate each other Instead they engaged in the consolidation of their own blocs and the build up of their defensive potential With Winston Churchill becoming the most outspoken advocate of detente the Kremlin greeted the return to power of the Conservative Party under his leadership with a general mistrust After Josef Stalin s death in March 1953 detente remained a distant reality The collective leadership was keen to reduce international tensions without modifying its predecessor s foreign policy or abandoning Soviet strongholds of central and eastern Europe As part of its peace offensive the Kremlin was prepared to improve the atmosphere in relations with Britain and increase the volume of Anglo Soviet trade However the British remained mistrustful of the intentions of Stalin s successors and refrained from initiatives leading to a relaxation of export controls independent from American embargo policy The author demonstrates that Stalin s heirs suspected that Churchill s pursuit of detente was

designed to secure far reaching concessions Moscow also felt that as a junior partner acting in full dependence on and in co operation with US policy Churchill was in no position to conciliate between the USSR and the USA Engaged in a domestic struggle for power members of the collective leadership were reluctant to allow their opponent Georgi Malenkov to negotiate single handedly with western statesmen It was only after Nikita Khrushchev's ascendance to power and Churchill's resignation from office that the Kremlin was prepared to participate in summit talks with the western heads of government

The Cold War and the New Imperialism Henry Heller, 2006-07 The Cold War and the New Imperialism is an account of global history since 1945 which brings massive changes in global politics economics and society together in a single narrative illuminating and clarifying the dilemmas of the present Written for the general reader it draws together scholarly research from a wide range of sources without losing sight of the larger pattern of events In the sixty year period since the end of World War II the world has indeed been remade The war itself mobilized the political and social aspirations of hundreds of millions of people The contest between the United States and the Soviet Union for global dominance drew every country into its field of force Struggles for national liberation in the Third World brought an end to colonial empires Revolutions in China Cuba Vietnam and elsewhere shook the global order as did failed uprisings in Paris and Prague Since the end of the Cold War the forces of the capitalist market have overwhelmed social institutions that have given meaning to human existence for centuries But the end of the Cold War has created as many problems for the world's remaining superpower the United States as it has solved With its political economic and financial hegemony eroding the United States has responded with military adventures abroad and increasing inequality and authoritarianism at home The Cold War and the New Imperialism draws all these threads together and shows vividly that the end of history is not in sight *Cold War*
