

The background of the entire image is a handwritten musical score on aged, yellowed paper. The score consists of multiple staves with various musical notations, including notes, rests, and accidentals. The handwriting is in dark ink, and the paper shows signs of wear and discoloration. The title 'DEBUSSY' is centered in a large, white, serif font within a black rectangular box. Below it, the word 'studies' is written in a smaller, white, italicized serif font within a black rectangular box. At the bottom, the text 'Edited by RICHARD LANGHAM SMITH' is written in a white, serif font within a black rectangular box.

Debussy Studies

Elliott Antokoletz, Marianne Wheeldon

Debussy Studies:

Debussy Studies Richard Langham Smith, 1997-04-10 A collection of essays on Debussy exploring his working methods visual tastes and his performance practice **Debussy Studies 2** Barbara L. Kelly, David J. Code, 2025-09-30 **Debussy's Ibéria** Matthew Brown, 2003 For well over a century musicologists have been fascinated by composers manuscripts and by the insights they might reveal about the nature of musical composition This book suggests ways in which Debussy's sketches and drafts may be used to explain how he composed one of his last great symphonic scores Ibéria from Images for orchestra 1903 Part 1 shows how we might understand the process of musical composition as a form of expert problem solving it describes the compositional history of the work the various intentional goals and historical constraints that guided Debussy's thinking and some of the technical problems Debussy faced while composing this remarkable score Part 2 reconstructs the genesis of each of the three movements in turn Debussy's Resonance François de Médicis, Steven Huebner, 2018 Some of Debussy's most beloved pieces as well as lesser known ones from his early years set in a rich cultural context by leading experts from the English and French speaking worlds The music of Claude Debussy has always been widely beloved by listeners and performers alike more perhaps than that of any of the other pioneers of musical modernism However rich in itself his creative output also participated and continues to participate in a network of cultural connections the scope and meaning of which can only be gleaned through multiple interpretive frameworks Debussy's Resonance offers twenty new studies by some of the most active and respected English and French language scholars of French music The book treats a large swath of the composer's music from previously unexplored modalities of his early years to late pieces such as the ballet Jeux and the Douze tudes and takes into consideration the numerous contexts that helped shape the works and the different ways that musicologists and critics have explained them CONTRIBUTORS Katherine Bergeron Matthew Brown David J Code Mark DeVoto Michel Duchesneau David Grayson Denis Herlin Jocelyn Ho Roy Howat Steven Huebner Julian Johnson Barbara L Kelly Richard Langham Smith Mark McFarland François de Médicis Robert Orledge Boyd Pomeroy Caroline Rae Marie Rolf August Sheehy FRANÇOIS DE MÉDICIS is Professor of Music at the Université de Montréal STEVEN HUEBNER is Professor of Music at McGill University **Debussy's Late Style** Marianne Wheelton, 2009 Debussy's Late Style explores Claude Debussy's musical responses to World War I This period of composition encompasses the duration of the war and the last four years of Debussy's life The works that emerged during this time reflect both wartime events and the composer's self-conscious desire to define his own musical legacy as he felt his life nearing its end Debussy's complete wartime compositions comprise a small but significant body of works some little known and some now acknowledged to be among the masterpieces of his career These include the Berceuse héroïque En Blanc et noir the Douze tudes the Nocturne des enfants qui n'ont plus de maisons and the three instrumental sonatas the Cello Sonata the Sonata for Flute Viola and Harp and the Violin Sonata Through music analysis musicology and cultural history this study offers interpretive readings of Debussy's late works

focusing in particular on how they reflect the unique cultural milieu of wartime Paris

Claude Debussy James R. Briscoe, 1990

Claude Debussy François Lesure, 2019 English translation and revised edition of the most comprehensive and reliable biography of Claude Debussy François Lesure's critical biography of Claude Debussy Fayard 2003 is widely recognized by scholars as the most comprehensive and reliable account of that composer's life and career as well as of the artistic milieu in which he worked This encyclopedic volume draws extensively on Debussy's complete correspondence at that time unpublished a painstaking tracking of contemporary reviews and comments in the press and an examination of other primary documents including private diaries that had not been available to previous biographers As such Lesure's book presents a wealth of new information while debunking a number of myths that had developed over the years since the composer's death in 1918 The present English translation and revised edition by Debussy authority Marie Rolf augments Lesure's numerous notes with several thousand new ones by Rolf providing more precise information on crucial and sometimes contentious points It also reflects Debussy scholarship that has appeared since 2003 updating Lesure's seminal work Rolf's translation the first ever will make Lesure's findings accessible to scholars musicians and music lovers in English speaking lands and around the world

FRANÇOIS LESURE 1923 2001 was the Director of the Music division of the Bibliothèque nationale de France Professor of Musicology at the Université libre de Bruxelles and Chair of Musicology at the école pratique des Hautes études MARIE ROLF is senior associate dean of graduate studies and professor of music theory at the Eastman School of Music and a member of the editorial board for the *Ouvres complètes de Claude Debussy*

Rethinking Debussy Elliott Antokoletz, Marianne Wheeldon, 2011-04-15 Composer pianist and critic Claude Debussy's musical aesthetic represents the single most powerful influence on international musical developments during the long fin de siècle period The development of Debussy's musical language and style was affected by the international political pressures of his time beginning with the Franco Prussian War of 1871 and the rise of the new Republic in France and was also related to the contemporary philosophical conceptualization of what constituted art The Debussy idiom exemplifies the ways in which various disciplines musical literary artistic philosophical and psychological can be incorporated into a single highly integrated artistic conception *Rethinking Debussy* draws together separate areas of Debussy research into a lucid perspective that reveals the full significance of the composer's music and thought in relation to the broader cultural intellectual and artistic issues of the twentieth century Ranging from new biographical information to detailed interpretations of Debussy's music the volume offers significant multidisciplinary insight into Debussy's music and musical life as well as the composer's influence on the artistic developments that followed Chapters include Russian Imprints in Debussy's Piano Music Music as Encoder of the Unconscious in Pelléas et Mélisande An Artist High and Low or Debussy and Money Debussy's Ideal Pelléas and the Limits of Authorial Intent Debussy in Daleville Toward Early Modernist Hearing in the United States and more *Rethinking Debussy* will appeal to students and scholars of French music opera and modernism and literary and French

studies scholars particularly concerned with Symbolism and theatre General readers will be drawn to the book as well particularly to chapters focusing on Debussy's finances dramatic works and reception **Debussy** Roger Nichols,1973 Provides a discerning assessment of the principal stages in Debussy's musical development Reader's Guide to Music Murray Steib,2013-12-02 The Reader's Guide to Music is designed to provide a useful single volume guide to the ever increasing number of English language book length studies in music Each entry consists of a bibliography of some 3-20 titles and an essay in which these titles are evaluated by an expert in the field in light of the history of writing and scholarship on the given topic The more than 500 entries include not just writings on major composers in music history but also the genres in which they worked from early chant to rock and roll and topics important to the various disciplines of music scholarship from aesthetics to gay lesbian musicology **Analysis and Understanding: Composition Studies with Wolf, Fauré, and Debussy (Studies in Composition and Theory)** Jeremy Beck,2024-10-10 From a practicing composer's perspective and with extensive musical examples this book contains theoretical studies of three musical compositions by Hugo Wolf Gabriel Fauré and Claude Debussy The impetus behind music analysis is to explore a composer's thought process It is an attempt to understand within the context and inherited tradition of a composer's time how and why a composer might have chosen a particular sonority devised a certain harmonic progression or designed a given musical structure It is through such analysis that one may be led to understanding and insight where past solutions by analogy or otherwise may inform ways of imagining new music without the necessity or use of quotation collage direct imitation or through a programmatic description My studies here of three individual works by these composers reveal just a fragment of the musical thought that lies within I do not claim that my perception and conclusions are the only means to gain insight here But it is my hope that this analysis yields useful points of understanding *Claude Debussy* Claude Abravanel,1976 *The Genesis of Debussy's Pelléas Et Mélisande* David A. Grayson,1986 *Douze Études* Claude Debussy,Stewart Gordon,2015-02-24 Claude Debussy's Douze études Twelve Studies for piano were written during the summer of 1915 a period in the composer's life filled with intense creativity This scholarly edition edited by Dr Stewart Gordon has been carefully researched from autographs and first editions Discrepancies between sources are mentioned in footnotes In prefatory matter Dr Gordon discusses Debussy's playing pedaling considerations and articulation issues Also provided are detailed analyses of each study's structure a chart of metronome marks corresponding with recorded performances of the études by famous pianists and a glossary of the French terms used throughout the études Additionally valuable performance recommendations helpful fingering and pedaling suggestions are offered in this comprehensive edition Titles I pour les cinq doigts d'après Monsieur Czerny II pour les tierces III pour les quarts IV pour les sixtes V pour les octaves VI pour les huit doigts VII pour les degrés chromatiques VIII pour les agréments IX pour les notes répétées X pour les sonorités opposées XI pour les arpèges composés XII pour les accords Analysis and Performance Critique of Debussy's Flute Works Ernestine Whitman,1977 A Comparative Study of

Claude Debussy's Piano Music Scores and His Own Piano Playing of Selections from His Welte-Mignon Piano Roll Recordings of 1912 Kyung-Ae Lee, 2001 Janáček Studies Paul Wingfield, 1999-10-21 This is the first major book about the music of the Czech composer Leos Jan ček **Musical Standard** ,1908 *The Strad* ,1924 New York Legislative Documents New York (State). Legislature, 1921
