Decadence And Catholicism:

Decadence and Catholicism Ellis Hanson, 1997 Romantic writers had found in Christianity a poetic cult of the imagination an assertion of the spiritual quality of beauty in an age of vulgar materialism The decadents a diverse movement of writers were the climax and exhaustion of this romantic tradition In their art they enacted the romance of faith as a protest against the dreariness of modern life Ellis Hanson teases out two strands eroticism and aestheticism that rendered the decadent interest in Catholicism extraordinary More than any other literary movement the decadents explored the powerful historical relationship between homoeroticism and Roman Catholicism Why throughout history have so many homosexuals been attracted to Catholic institutions that vociferously condemn homosexuality This perplexing question is pursued in this elegant and innovative book Late nineteenth century aesthetes found in the Church a peculiar language that gave them a means of artistic and sexual expression The brilliant cast of characters that parades through this book includes Oscar Wilde Charles Baudelaire J K Huysmans Walter Pater and Paul Verlaine Art for these writers was a mystical and erotic experience In decadent Catholicism we can glimpse the beginnings of a postmodern valorization of perversity and performativity Catholicism offered both the hysterical symptom and the last hope for paganism amid the dullness of Victorian puritanism and bourgeois materialism

Decadence and Catholicism Ellis Hanson, 1994 **Decadent Catholicism and the Making of Modernism** Martin Lockerd, 2016 This dissertation intervenes at the meeting point of two current but largely separate critical discourses on 1 the role of fin de siècle Decadence in the development of literary Modernism and 2 the relationship between Modernism and Christianity Two decades after Ellis Hanson's *Decadence and Catholicism* 1997 which proved definitively and at length the interdependence of decadent art and the theology rituals and symbolism of the Catholic Church scholars continue to either leave religion out of the discussion of Decadence and Modernism altogether or pay it only glancing attention Recent years have witnessed a surge of critical interest in the relationship between British Decadence and early twentieth century Anglophone literature with the publication of two important books Vincent Sherry's *Modernism and the Reinvention of Decadence* 2015 and Kristin Mahoney's *Literature and the Politics of Post Victorian Decadence* 2015 However these recent contributions manage to avoid any extended discussion of Catholicism Similarly those arguing for a greater recognition of the modernist engagement with Christianity Pericles Lewis *Religious Experience and the Modernist Novel* 2010 and Erik Tønning *Modernism and Christianity* 2014 tend to overlook or downplay decadent artists such as Lionel Johnson and Ernest Dowson We have yet to fully appreciate the extent to which high and peripheral modernists such as T S Eliot and Evelyn Waugh looked to decadent artists such as Oscar Wilde and Aubrey Beardsley for models of what religious art might look like in an age trending toward secularization The following pages tell a previously untold history In this history decadent Catholicism represents much more than a literary trope developed at the fin de siècle and sporadically adopted in the early twentieth century Through my research I demonstrate that the very development of modernist literature depended

in part on diverse acts of engagement with decadent Catholicism **Catholicism as Decadence** Marcello Fantoni, Chiara Continisio, 2008 This volume is the result of two workshops that took place at the Center for the Study of Italian History Culture of Georgetown University Fiesole and dealt with the relationship between Catholicism and the interpretative canons of history This theme was instrumental to the discussion of the causes leading to the emergence of the concept of decadence during the age of the counter reformation and of the link between Catholicism and anti modernity In keeping with this theme the volume offers a panorama of the various national historiographies in order to highlight the specific ideological and historiographical trends that led to this association From the discussion emerged both common trends and different declinations of one single phenomenon Thus it has been possible to present for the first time both a comparative perspective and a more general view The association between Catholicism and anti modernity which originated during the age of the Reformation and expressed itself in literature in historiography and in political and philosophical thought and more generally in the collective imagination has become a cultural phenomenon that reached its zenith in the nineteenth century It has had a strong impact on the epistemology of historical research has contributed to shape many different identitary paradigms and has become a distorting lens through which to read the role of Catholicism in political debate and in social dynamics Contributors Marcello Fantoni Chiara Continisio John T McGreevy John O Malley John Monfasani Jos Mart nez Mill n Simon Ditchfield Manfred Hinz Helen Hills **Decadent Catholicism and the Making of Modernism** Martin

Lockerd, 2020-06-25 Tracing the movement of literary decadence from the writers of the fin de si cle Oscar Wilde Aubrey Beardsley Ernest Dowson and Lionel Johnson to the modernist writers of the following generation this book charts the legacy of decadent Catholicism in the fiction and poetry of British and Irish modernists Linking the later writers with their literary predecessors Martin Lockerd examines the shifts in representation of Catholic decadence in the works of W B Yeats through Ezra Pound to T S Eliot the adoption and transformation of anti Catholicism in Irish writers George Moore and James Joyce the Catholic literary revival as portrayed in Evelyn Waugh s Brideshead Revisited and the attraction to decadent Catholicism still felt by postmodernist writers D B C Pierre and Alan Hollinghurst Drawing on new archival research this study revisits some of the central works of modernist literature and undermines existing myths of modernist newness and secularism to supplant them with a record of spiritual turmoil metaphysical uncertainty and a project of cultural subversion that paradoxically relied upon the institutional bulwark of European Christianity Lockerd explores the aesthetic sexual and political implications of the relationship between decadent art and Catholicism as it found a new voice in the works of iconoclastic modernist writers **The Catholic Church, the Renaissance and Protestantism** Alfred Baudrillart, 1907
