Decision Order And Time In Human Affairs:

Decision, Order and Time George Lennox Sharman Shackle,1961 **Decision Order and Time in Human Affairs** G. L. S. Shackle,2010-06-24 This second edition examines how one makes a decision and the factors that influence that decision *Decision, Order and Time in Human Affairs* George Lennox Sharman Shackle,1961 **Decision Order & Time in Human Affairs** George Lennox Sharman Shackle, **Decision, Order and Time in Human Affairs. [Mit Diagr.] 2. Ed. - Cambridge: At the Univ. Press 1969. XVI, 330 S. 8°** George Lennox Sharman Shackle,1969 **Financial Markets in the Capitalist Process** Douglas Vickers,2016-11-11 The preoccupation of financial theory with static timeless equilibrium analysis has given rise to an orthodoxy that avoids the problems of uncertainty in the world This work establishes new perspectives from which contemporary financial theory can be evaluated Echoing Keynes observation that Human decisions cannot depend on strict mathematical expectation Douglas Vickers explains why most decisions in economics and finance are not made under conditions to which the calculus of probability applies The author proposes a new realism in financial theory that takes into account the uncertainty in personal and economic decisions Both business firms and financial investors he contends acquire an important perspective on their alternatives by focusing on the transitional disequilibrium processes in financial markets rather than on their sup posed equilibrium conditions This involves for economic decisions an understanding of time as historic in a genuine operational sense rather than as merely a logical variable The notion of probability should be replaced by that of possibility the concept that the British economist G L S Shackle has called potential surprise In Part I Vickers innovative approach leads to a careful study of the false trading that occurs in real and financial markets Part II provides an exposition and an evaluation of the equilibrium theory of financial asset prices The new analytical apparatus is applied in Part Ill to investment decision making in the firm and to the choice of financial asset portfolios as well as to the questions of asset trading and changes in portfolio composition A scholarly and constructive work Financial Markets in the Capitalist Process will generate controversy among professionals and debate among students for many years to come
