World War II at Sea Craig L. Symonds, 2018 Craig L Symonds *World War II at Sea* offers a definitive naval history of the Second World War presenting the chronology of the naval war from The London Conference of 1930 to the surrender in Tokyo Bay in 1945 on a global scale for the first time

Nimitz at War Craig L. Symonds, 2022 From one of our most distinguished naval historians the first wartime biography in a half century of the man who guided America to victory in the Pacific in World War Two The most cataclysmic and consequential war in history produced more than its share of fascinating characters and great leaders Some have hardened into legend others fallen below the radar Somewhere in between sits Chester W Nimitz Commander in Chief of both the Pacific Fleet and the Pacific Ocean Area from 1941 to 1945 Nimitz demanded and received less attention than his Army counterpart Douglas MacArthur whose self promotion was prodigious He seemed less colorful than some of his subordinates such as Admiral Bill Bull Halsey and General Holland Howlin Mad Smith Yet Nimitz's was the guiding hand of Allied forces in the Pacific War and the central figure in the victory against Japan Craig L Symonds's full length portrait of Nimitz from the precarious early months following Pearl Harbor when Nimitz assumed command of the Pacific Fleet to the surrender ceremony in Tokyo Bay is the first in more than fifty years Using Nimitz's headquarters the eye of the hurricane as the vantage point Symonds covers the

major campaigns from Guadalcanal to Okinawa He captures Nimitz s calm discipline homespun wisdom and uncanny sense of when to project authority and when to pull back illuminating how this helped him direct one of the largest and most complex campaigns in military history fought against an implacable foe The pressures Nimitz faced were crushing involving tactical and strategic decision making visualizing success while mindful of the welfare of those who served under him soldiers sailors and Marines He had to corral assertive subordinates and keep them focused on the larger objectives and maintain a strong working relationship with his own superiors including the equally formidable Admiral Ernest J King and President Franklin D Roosevelt In addition Nimitz had to deal with the public spectacle of war managing the expectations of a nation both expecting victory and longing for the carnage to end In retrospect it seems impossible to imagine anyone else could have accomplished all this As Symonds absorbing dynamic and authoritative portrait reveals it took leadership asked of and exhibited by few others Behind Nimitz s unflappable professionalism and reservoirs of charm were a resolve and audacity that became evident when most needed

Network-centric Warfare Norman Friedman,2009 This study is a vital first step in a long overdue reassessment of the dramatic changes in the command and control of naval operations in the twentieth century Dr Friedman s work shows how fundamental communications networks and information systems were to commanders afloat and ashore in fighting the war at sea and that victory went to the possessor of the more comprehensive picture of the maritime battlespace The increasing complexity of the issues that navies faced in their continual struggle to exploit new developments is very thoroughly conveyed in a book whose author consistently demonstrates an understanding of both the theoretical science and the practical technology which underpinned that revolution Publisher s blurb
