Decision Management How To Assure Better Decisions In Your Company:

Decision Management J. Frank Yates, 2003-02-03 Why do the people in some companies continually dazzle us with their brilliant decisions while those in others make one blunder after another Do they understand their businesses better Are they just plain smarter Or is it all a matter of luck The answer says J Frank Yates is none of the above The real key rarely recognized is how the leaders manage the company s decision processes the leaders decision management practices Drawing on his thirty years of research and experience as well as scholarship from psychology economics statistics strategy medicine and other fields to explain the fundamental nature of business decision problems Yates highlights the ten cardinal decision issues crucial to managing the decision making process and ultimately better company decisions He covers problems ranging from recognizing whether a decision is actually called for to assuring that a preferred course of action will be implemented He shows how solid decisions result when managers ensure that deciders resolve every cardinal issue effectively for every decision problem facing the company He also reveals how conversely chronically poor decisions are traceable to managers allowing or even creating conditions that encourage deciders to fall short in how they address at least one of those critical issues *Neuroeconomics, Judgment, and Decision Making* Evan A. Wilhelms, Valerie F.
