The case studies present routine and urgent, controversial and consensus-driven decisions in nine presidential administrations from Harry Truman's decision to drop the atomic bomb on Japan in 1945 to George W. Bush's responses to international terrorism in the wake of 9/11. Each chapter includes essential background information, a chronology of events and primary source documents. Through all these elements, even students with little or no background in history will gain a new understanding of how presidents, institutions and issues all shape American foreign policy.

[Encyclopedia of Counseling](#), Frederick T. Leong, 2008-04-25. Selected as an Outstanding Academic Title by Choice Magazine, January 2010. From the depressed and lonely college student to the business executive at midlife experiencing decreasing levels of career satisfaction to the couple where one partner has been unfaithful in the relationship, counselling is the intervention that numerous individuals turn to each year as the challenges and stress of daily living exceed their normal coping abilities. Counselling is practised by counsellors, social workers, psychiatric nurses, psychologists and psychiatrists. Counselling is to be differentiated from psychotherapy in that the latter deals more with mental illnesses and psychological disorders while the former is more concerned with normative stresses, adjustment difficulties and life transitions, e.g. adjusting to unemployment or going through a divorce. The Encyclopedia of Counseling will be the definitive resource for members of the public who are interested in learning about the science and practice of counselling. It will also be a useful resource for undergraduate and graduate students as well as professionals from other specialties. Covering all of the major theories, approaches and contemporary issues in counselling, the set includes over 600 entries. The Encyclopedia will consist of four volumes: a) changes and challenges facing counseling; b) personal counseling for mental health problems; c) career counseling; and d) cross-cultural counseling. Each volume is organized alphabetically and will contain a comprehensive index and cross-referencing system to entries in other volumes.
