## **Declaring Rights A Brief Documentary History:**

**Uniquely Human: the Basis of Human Rights** Gabriel Moran, 2013-08-21 The basis of human rights remains in need of exploration The effectiveness of the language of human rights is threatened by its widespread but uncritical use This book is neither a sermon to believers nor an attack by a skeptic It is a critical look at the basis of those few rights that are genuinely universal for example a right not to be tortured or a right to basic subsistence A human right is a claim that every human being can make on the whole human race The rights that are specifically human arise from a human respect for all living beings There is still a widespread assumption that human rights is just another name for the confused idea of natural rights from the eighteenth century rights that were promulgated by and for adult white males The authors of the UNs Universal Declaration of Human Rights in 1948 assumed that they were reformulating an old idea Instead they were beginning a new idea Human rights can be realized only through conversations across differences within gender age culture and religion This book traces those continuing conversations that fill out the diversity within the unity of the human race The convergence of many particular traditions creates a human tradition that can sustain human rights as a standard of moral conduct for all nations

**The End of Human Rights** Costas Douzinas, 2000-06-01 The introduction of the Human Rights Act has led to an explosion in books on human rights yet no sustained examination of their history and philosophy exists in the burgeoning literature At the same time while human rights have triumphed on the world stage as the ideology of postmodernity our age has witnessed more violations of human rights than any previous less enlightened one This book fills the historical and theoretical gap and explores the powerful promises and disturbing paradoxes of human rights Divided in two parts and fourteen chapters the book offers first an alternative history of natural law in which natural rights represent the eternal human struggle to resist domination and oppression and to fight for a society in which people are no longer degraded or despised At the time of their birth in the 18th century and again in the popular uprisings of the last decade human rights became the dominant critique of the conservatism of law But the radical energy symbolic value and apparently endless expansive potential of rights has led to their adoption both by governments wishing to justify their policies on moral grounds and by individuals fighting for the public recognition of private desires and has undermined their ends Part Two examines the philosophical logic of rights Rights the most liberal of institutions has been largely misunderstood by established political philosophy and jurisprudence as a result of their cognitive limitations and ethically impoverished views of the individual subject and of the social bond The liberal approaches of Hobbes Locke and Kant are juxtaposed to the classical critiques of the concept of human rights by Burke Hegel and Marx The philosophies of Heidegger Strauss Arendt and Sartre are used to deconstruct the concept of the legal subject Semiotics and psychoanalysis help explore the catastrophic consequences of both universalists and cultural relativists when they become convinced about their correctness Finally through a consideration of the ethics of otherness and with reference to recent human rights violations it is argued

that the end of human rights is to judge law and politics from a position of moral transcendence This is a comprehensive historical and theoretical examination of the discourse and practice of human rights Using examples from recent moral foreign policies in Iraq Rwanda and Kosovo Douzinas radically argues that the defensive and emancipatory role of human rights will come to an end if we do not re invent their utopian ideal

**Political Thought and the Origins of the American Presidency** Ben Lowe,2024-09-17 How the American executive office was constructed in the Constitution and implemented by the first presidents This volume examines the political ideas behind the construction of the presidency in the U S Constitution as well as how these ideas were implemented by the nation s early presidents The framers of the Constitution disagreed about the scope of the new executive role they were creating and this volume reveals the ways the duties and power of the office developed contrary to many expectations Here leading scholars of the early republic examine principles from European thought and culture that were key to establishing the conceptual language and institutional parameters for the American executive office Unpacking the debates at the 1787 Constitutional Convention these essays describe how the Constitution left room for the first presidents to set patterns of behavior and establish a range of duties to make the office functional within a governmental system of checks and balances Contributors explore how these presidents understood their positions and fleshed out their full responsibilities according to the everyday operations required to succeed As disputes continue to surround the limits of executive power today this volume helps identify and explain the circumstances in which limits can be imposed on presidents who seem to dangerously exceed the constitutional parameters of their office

**Political Thought and the Origins of the American Presidency** demonstrates that this distinctive time tested role developed from a fraught historically contingent and contested process Contributors Claire Rydell Arcenas Lindsay M Chervinsky Francois Furstenberg Jonathan Gienapp Daniel J Hulsebosch Ben Lowe Max Skj nsberg Eric Slauter Caroline Winterer Blair Worden Rosemarie Zagarri A volume in the Alan B and Charna Larkin Series on the American Presidency

**Human Rights in the World Community** Burns H. Weston,Anna Grear,2016-04 Designed for educational use in international relations law political science economics and philosophy classes Human Rights in the World Community treats the full range of human rights issues including implementation problems and processes involving international national and nongovernmental action Now with online appendices

**The Bill of Rights: a Documentary History** Bernard Schwartz,1971

**Encyclopedia of Human Rights** David P Forsythe,2009-08-27 Winner of the 2010 Dartmouth Medal this major five volume encyclopedia offers comprehensive coverage of all aspects of human rights theory practice law and history The set will provide situation profiles and full coverage of the development of the movement historical cases of abuse the key figures major organizations and a range of other issues in economics government religion and journalism that touch on human rights theory and practice In addition to providing original analytical articles covering standard subjects such as the right to health and health care Amnesty International the Balkan wars and former President of Ireland Mary Robinson it offers innovative coverage of such

subjects as the Internet intellectual property rights the American civil rights movement globalization and Brazil in historical context Focusing primarily on developments since 1945 it offers an unrivaled reference source for students and researchers even human rights experts are likely to find much original material and keen insights in many of the entries KEY SUBJECT AREAS INCLUDE ORGANIZATIONS AND INSTITUTIONS American Civil Liberties Union World Health Organization UNICEF Carter Center LEADING FIGURES Adolf Hitler Steve Biko Elie Wiesel Simone de Beauvoir Joseph Stalin Eleanor Roosevelt Pol Pot Shirin Ebadi Kim Jong Il HUMAN RIGHTS EVENTS AND CRISES Darfur Irish Famine Soviet Gulag Central America in the 1980s Colonialism Belgian Congo AIDS HUMAN RIGHTS NORMS Ethnic Cleansing Women s Rights Religious Freedom Torture International Law Disability Rights

**Human Rights and Revolutions** Jeffrey N. Wasserstrom, Lynn Hunt, Marilyn Blatt Young, 2000 Preface Marilyn B Young England's Glorious Revolution 1688-1689 Steven C. A. Pincus, 2018-10-24 Englands Glorious Revolution is a fresh and engaging examination of the Revolution of 1688 1689 when the English people rose up and deposed King James II placing William III and Mary II on the throne Steven Pincus introduction explains the context of the revolution why these events were so stunning to contemporaries and how the profound changes in political economic and foreign policies that ensued make it the first modern revolution This volume offers 40 documents from a wide array of sources and perspectives including memoirs letters diary entries political tracts pamphlets and newspaper accounts many of which are not widely available Document headnotes questions for consideration a chronology a selected bibliography and an index provide further pedagogical support

**The Ambivalence of Good** Jan Eckel, 2019 The 20th century was marked by the emergence of human rights and their power to transform international relations but not everyone who claimed human rights wanted to make the world a better place while sometimes the benefits of human rights were unintended Eckel recounts a history that is complex polycentric and does not provide easy lessons

A History of World Societies Volume C: 1775 to the Present John P. McKay, Bennett D. Hill, John Buckler, Patricia Buckley Ebrey, Roger B. Beck, Clare Haru Crowston, Merry E. Wiesner-Hanks, Jerry Davila, 2014-09-12 Long praised by instructors and students for its accessible regional chapter structure readability and sustained attention to social history the tenth edition of A History of World Societies includes even more built in tools to engage today s students and save instructors time This edition features thoroughly revised chapters by new author and Latin American specialist Jerry D vila an expanded primary source program in the text and online and the best and latest scholarship throughout The tenth edition presents LaunchPad a new intuitive ebook and course space with LearningCurve adaptive quizzing and a wealth of activities and assessments that help students make progress toward learning outcomes LaunchPad features primary source activities map and visual activities adaptive and summative quizzing and a wealth of optional resources including carefully developed Online Document Projects for each chapter with auto graded exercises

*The Making of the West, Combined Version (Volumes I & II)* Lynn Hunt, 2009 The Making of the West offers a geographically and culturally expansive conception of the West that

prepares students to understand today's globalized world. Its integrated chronological narrative makes the impact of historical developments clear by highlighting the interconnections among the politics, people, and ideas of a specific period. From the book's conception, the authors, a team of renowned scholars and expert teachers, have worked to provide a new vision of the West based on cutting-edge scholarship. The narrative, enhanced by a rich and informative art and map program, distills the latest research and consistently treats topics underserved in other books: the West in global perspective, high and popular art and culture, and gender.

**Jefferson vs. Hamilton** Noble E. Cunningham, Jr., 2018-12-05 This documentary study of Thomas Jefferson and Alexander Hamilton focuses on their differing views of society and government in the formative years of the new American nation. Interweaving more than 40 documents into 7 chronological chapters, the text follows the lives and careers of the two men from their youth through the Revolutionary War to the death of Hamilton in 1804. In each chapter, generous excerpts from their public papers and private letters reveal the two men's often divergent views on government and the Constitution, economic and foreign policy, and the military, and illustrate the roles they played in the emergence of political parties. Reading Jefferson's First Inaugural Address, the Report on Public Credit, the Kentucky Resolutions, and a host of other documents, students can explore firsthand the two men's philosophies and the impact these had on the emerging nation. Also included are 10 illustrations, a Jefferson-Hamilton chronology, a bibliography, and an index.

**Sovereignty and Slavery in the Age of Revolution : Haitian Variations on a Metropolitan Theme** Malick Walid Ghachem, 2001      Documentary History of Education in Upper Canada: 1846 Ontario. Department of Education, 1899

**Documentary History of Education in Upper Canada: 1843-1846** Ontario. Department of Education, 1897
