*The End of American Exceptionalism* David M. Wrobel, 1993 A lucid and rewarding synthesis of cultural and western history. Richard W. Etulain, author of *Writing Western History*, Wrobel makes a fine contribution to the study of myth by analyzing the anxiety or angst Americans felt about the frontier in the half century after 1890. This is an excellent book on a big subject, executed with much skill. *Western Historical Quarterly* Direct admirably brief and crisply written. *Journal of American History*      **Political Affairs**, 1928      *Overripe Economy* Alan Nasser, 2018-06-20 From industrialisation to the present day, *Overripe Economy* is a genealogy of the emergence of a finance-ridden, authoritarian austerity-plagued American capitalism. This panoramic political-economic history of the country surveys the ruthlessly competitive capitalism of the nineteenth century, the maturation of industrial capitalism in the 1920s, the rise and fall of capitalism's Golden Age, and the ensuing decline towards the modern era. Alan Nasser shows why the emergence of the persistent austerity of financialised neoliberal capitalism is the natural outcome of mature capitalism's evolution, revealing both the key structural and political vulnerabilities of capitalism itself and points towards the kind of system that can transcend it. At the centre of the argument is capitalism's ultimatum: either a new normal of persistent austerity, declining democracy, and a privatised state, or a polity and economy characterised by an economic democracy that can ensure both higher wages and a shorter working week.      **The**

**Workers Monthly** ,1925      **The Climax of Capitalism** Tom Kemp,2014-01-14 How did the United States become the twentieth century s dominant economy What is special about America and the American way of capitalism that favoured such a rapid climb to wealth and power And as the old postwar certainties begin to crumble is the climax of American capitalism already over These are the themes addressed in this engrossing book which gives a chronological analytical account of the American economy from the late nineteenth century to the end of the Reagan era and beyond      Class Struggle and the New Deal Rhonda F. Levine,1988 In this reassessment of New Deal policymaking Rhonda Levine argues that the major constraints upon and catalysts for FDR s policies were rooted in class conflict Countering neo Marxist and state centred theories which focus on administrative and bureaucratic structures she contends that too little attention has been paid to the effect of class struggle      Narratives of Delusion in the Political Practice of the Labour Left 1931-1945 Roger Spalding,2018-04-18 This book sets out a challenging re interpretation of the politics of Labour s left wing It shows how the Left developed a range of simplistic self sustaining narratives rather than supported analyses to guide its actions in the aftermath of the political crisis of 1931 This approach it is argued persisted down to the opening years of the present century its employment in part explaining the decline of the pre Corbyn Left The narratives developed by the Left reflected a belief in the existence of a working class waiting to be led in a radical direction The leading figures of the Left often had limited direct contact with working people but within their narratives the responses of their target audience were predictable and automatic The Left created an idealised working class that behaved as the Left wished In addition the book questions the popular view often enhanced by biographers of many of these Labour Left leaders      *Economic history pamphlets* ,1885      Marxism in the United States, 1900-1940 Paul Buhle,1975      The Approaching Collapse of American Capitalism Fred M.
