Decoding the Secret Language of Your Body

Martin Rush, 1994-12 Itchy palms cold feet a pain in the neck Not a day goes by that our bodies don't speak to us through tickles and tingles belches and bellyaches and psychiatrist Martin Rush takes us on an entertaining enlightening exploration as he teaches us how to decode these secret signs and signals Rush reasons that many of the twitches and twinges we experience may have psychological roots rather than physical ones The runny nose lower backache and cough signify some underlying wants or needs that the body is trying to convey Because we aren't always aware of our feelings the sudden symptom may be a physiological way of drawing our attention to an unnoticed emotion By recognizing these signals and then deciphering them we can better understand the meanings in our aches pains and other symptoms So if you're itching to know why you have sudden chronic sneezing attacks or why your eyelid occasionally twitches uncontrollably or what is behind that unexplainable rash then perhaps it's time for a visit with Dr Rush The quintessential example of the mind body connection Decoding The Secret Language of Your Body makes everyone aware of even the most subtle interaction between feelings and body responses
