

What is Deconstruction as a *Literary Theory*?

- In terms of literary theory, Deconstruction *rejects* the Structuralist idea that any literary work has a stable, closed meaning, or a “center” around which the rest of the work revolves.
- Deconstructive critics look at the way that plural, multiple meanings occur in works of literature, and how those multiple meanings interact with one another.
- Deconstructive critics also look for ways in which either/or readings (usually about pairs of opposites called *binaries*) in a given text break down or become unstable.

what these radical critics have contributed to our understanding of reason and where they have gone wrong He explores Habermas's theory of communicative rationality focusing on the attempt to go beyond hermeneutics the incorporation of systems theory the implications of discourse ethics for our understanding of political debate and collective decision making and the relation of political theology to critical social theory Thomas McCarthy is Professor of Philosophy at Northwestern University and the editor of The MIT Press series Studies in Contemporary German Social Thought The analysis and assessment of Habermas's recent work in *Ideals and Illusions* serves as a sequel to his earlier study *The Critical Theory of Jürgen Habermas*

Deconstruction and the Interests of Theory Christopher Norris, 1988 A collection of essays in current analytical philosophy which is united by a general concern with the uses of theory and the way that certain advanced forms of literary critical theory have been extended to other disciplines often the author argues with undesirable results

Against Relativism Christopher Norris, 1997

Post-deconstructive Subjectivity and History Aniruddha Chowdhury, 2013-09-19 In *Post Deconstructive Subjectivity and History* Aniruddha Chowdhury argues that deconstruction is not only not a dissolution of subject as it is often opined but an affirmation of the singular ethical subject and singular history singularity conceived as alterity difference and non identity Part of the emphasis of the singular history is to conceive the historical relation as figural and as one of repletion with difference One of the distinctive aspects of the book is that it not only focuses on the tradition of phenomenology but also extends deconstruction to critical theory and postcolonial theory Through his intimate reading of the canonical texts of the Continental philosophical tradition phenomenology and critical theory and postcolonial thought Chowdhury illuminates pertinent issues in Continental thought and postcolonial theory

On Deconstruction Jonathan D. Culler, 1982 With an emphasis on readers and reading the author considers deconstruction in terms of the questions raised by psychoanalytic feminist and reader response criticism As a result this book is both an authoritative synthesis of Derrida's thought and an analysis of the often problematic relation between his philosophical writings and the work of literary critics From the New Criticism to Deconstruction Art Berman, 1988 From the New Criticism to Deconstruction traces the transitions in American critical theory and practice from the 1950s to the 1980s It focuses on the influence of French structuralism and post structuralism on American deconstruction within a wide ranging context that includes literary criticism philosophy psychology technology and politics **Contest of Faculties (Routledge Revivals)** Christopher Norris, 2009-12-15 This Routledge Revival first published in 1985 gives detailed attention to the bearing of literary theory on questions of truth meaning and reference On the one hand deconstruction brings a vigilant awareness of the figural and narrative tropes that make up the discourse of philosophic reason On the other it insists that argumentative rigour cannot be divorced from the kind of close reading that has come to characterize literary theory in its more advanced or speculative forms This present day contest of faculties has large implications for philosophers and critics many of whom will welcome the reissue of such a clear headed statement of the impact of deconstruction

Poststructuralism and Critical Theory's Second Generation Alan D. Schrift, 2014-09-11 Poststructuralism and Critical Theory's Second Generation analyses the major themes and developments in a period that brought continental philosophy to the forefront of scholarship in a variety of humanities and social science disciplines and that set the agenda for philosophical thought on the continent and elsewhere from the 1960s to the present Focusing on the years 1960-1984 the volume examines the major figures associated with poststructuralism and the second generation of critical theory the two dominant movements that emerged in the 1960s Althusser Foucault Deleuze Derrida Lyotard Irigaray and Habermas Influential thinkers such as Serres Bourdieu and Rorty who are not easily placed in standard histories of the period are also covered Beyond this thematic essays engage with issues as diverse as the Nietzschean legacy the linguistic turn in continental thinking the phenomenological inheritance of Gadamer and Ricoeur the influence of psychoanalysis the emergence of feminist thought and a philosophy of sexual difference the renewal of the critical theory tradition and the importation of continental philosophy into literary theory **Deconstruction and the Politics of Criticism** Sibel Irzik, 2016-08-19 The purpose of this book first published in 1990 is to call attention to the contrast between the remarkable politicization of the rhetoric of literary criticism and the scarcity of interest in the concrete historical and political contexts of literary texts Deconstruction and the Politics of Criticism will be of interest to students of literature and literary theory What's Wrong with Postmodernism? Christopher Norris, 1990 In What's Wrong with Postmodernism Norris critiques the postmodern pragmatist malaise of Baudrillard Fish Rorty and Lyotard In contrast he finds a continuing critical impulse an enlightened or emancipatory interest in thinkers like Derrida de Man Bhaskar and Habermas Offering a provocative reassessment of

Derrida's influence on modern thinking Norris attempts to sever the tie between deconstruction and American literary critics who he argues favor endless playful polysemic interpretation at the expense of systematic argument As he explores leftist attempts to arrive at an accommodation with postmodernism Norris addresses the politics of deconstruction the issue of men in feminism Habermas quarrel with Derrida narrative theory as a hermeneutic paradigm musical aesthetics in relation to literary theory and various aspects of postmodern debate A chapter on Stanley Fish brings several of these topics together and offers a generalized statement on the function of current criticism *Deconstruction* Christopher Norris, 2003-12-16 While in no way oversimplifying its complexity or glossing over the challenges it presents Norris's book sets out to make deconstruction more accessible to the open minded reader **The Theory Mess** Herman Rapaport, 2001 A clarifying account of the general landscape of critical theory in the United States over the last 30 years ending with the current eclipse of deconstruction **Philosophy Beside Itself** Stephen W. Melville, 1986-01-01 **Theory after Derrida** Kailash C. Baral, R. Radhakrishnan, 2018-04-17 A critical anthology that re-examines Jacques Derrida's thought by way of theory and praxis this volume reflects on his striking legacy and the future of theory Among contemporary thinkers Derrida challenges not only our ways of thinking but also hitherto methods of inquiry This book captures how Derrida renovates and re-energises philosophy by questioning the fundamental assumptions of Western philosophical thought By doing so he exposes the intricate lie behind binaries such as speech writing nature culture male female black white literature criticism etc which have continued to shape our worldview where a hegemonic centre is always already in place dominating or marginalising the other A significant contribution to literary theory this book explores not only the status of Derrida's contribution as a critical thinker but also the status of critical theory as such in the contemporary milieu The central question that it asks is whether we should dismiss Derrida as a thinker who espoused an extreme form of relativism bordering on nihilism or has he something fundamental to contribute to the future of theory Could it be that deconstruction is not destruction but a possibility that casts doubts on whether the present can have faith in future This second edition includes a new Postscript and addresses some important concerns of our times such as religious practice art and aesthetics translation sociology of philosophy and democracy Scholars and researchers of English literature philosophy sociology and cultural studies will find this work particularly interesting *The Philosophy of Modern Literary Theory* P. V. Zima, 1999 A remarkable systematic reconstruction of the philosophical and aesthetic foundations of the major literary theories from Anglo American New Criticism to Deconstruction and Postmodernism The book ranges across not just the philosophical underpinnings of English Literature but also the critical literatures of Eastern Europe France Germany Italy and North America For the first time the major schools of literary theory are set within their philosophical context The book is likely to become the standard introduction to the study of literary theory
