Diccionario de materiales cerámicos Carmen Padilla Montoya,Ruth Maicas Ramos,Paloma Cabrera Bonet,2002 Hace casi una década la Dirección General de Bellas Artes y Bienes Culturales inició un ambicioso proyecto de Normalización Documental de Museos que se ha venido desarrollando en diferentes actuaciones Se han analizado y definido los procesos de gestión museística como unas estructuras descriptivas y de catalogación normalizadas de los bienes culturales custodiados en los museos Partiendo de este análisis y definición se ha elaborado un sistema integrado de documentación y gestión museográfica Domus que está permitiendo informatizar los museos estatales y próximamente hará posible la difusión en red de la información sobre el Patrimonio custodiado en los mismos Otro aspecto importante del proyecto es la normalización de terminologías la unificación y estructuración del vocabulario técnico utilizado en la descripción y catalogación de bienes culturales imprescindible para construir bancos de datos de calidad no sólo de museos sino de Patrimonio Histórico en general

Tenemos la satisfacción de presentar aquí el primer resultado de esta segunda línea de actuación en el Diccionario de Materiales Cerámicos. Contiene terminología referida tanto a denominaciones de objetos cerámicos como a materias y técnicas de elaboración y decoraciones como términos de descripción especializados. Además esta publicación es más que un diccionario ya que tiene el valor añadido que un tesoro aporta a una mera relación de términos y definiciones fruto de un importante esfuerzo de sistematización. Pretendemos que se convierta en una publicación de referencia como herramienta de apoyo a la catalogación de una categoría de bienes culturales tan abundante en los museos y colecciones como es la de la Cerámica.
