Deep Blood:

Deep Blood Phillip Thompson, 2013-07-26 *Deep Blood* is the story of Mississippi sheriff Colt Harper whose moral compass is slightly askew separated but not divorced from his wife he sleeps with a New Orleans stripper who regularly violates the drug laws of Lowndes County he drinks too much and habitually ignores the more mundane aspects of his sworn duty Even when he must investigate the death of a young man the son of a close friend his mind wanders from the subsequent investigation But when his alcoholic amoral father Winston is arrested yet again for DUI he learns an inexcusable truth about his father's past a truth he wants to ignore but knows he must confront *Bulletin*, 1902 *Cruelty, Sexuality, and the Unconscious in Psychoanalysis* Touria Mignotte, 2019-11-28 In *Cruelty Sexuality and the Unconscious in Psychoanalysis* Touria Mignotte explores an innovative conception of cruelty Integrating the life sciences and quantum physics this approach shows that cruelty structures the living just as much as the unconscious and makes it possible to integrate the main psychoanalytic currents notably Freud Lacan Winnicott Klein and the thinkers of autism while renewing the place of psychoanalysis as a human science The life sciences have given us an insight into the murderous struggles that unfold before the primitive environment consents to the emergence of life as a primary destructive impulse This book offers a deep exploration of this primitive cruelty and of the processes of pairing that it induces Mignotte hypothesizes that cruelty pertains to the dynamics of the void from which the human being originates and whose creative expansion manifests itself at each birth as a sexual excess threatening the primary oneness *Cruelty Sexuality and the Unconscious in Psychoanalysis* thus posits the necessity of revisiting the fundamental concepts of psychoanalysis within a new epistemological framework developed from the laws of the dynamics of the void and based on an analysis of the development of these dynamics through clinical symptomatology From this new perspective this book suggests that the narcissistic psychoses and contemporary pathologies may be seen as the enactment of the murder and incest induced by the jouissance of the primitive void This book calls on psychoanalysts to become the testamentary witnesses of the inhuman sexuality of the primitive void and to allow themselves to be affected by the ferment of destabilization and dissociation from which it proceeds **E-Book - The Channels of Acupuncture** Giovanni Maciocia, 2006-08-28 One of the most highly regarded and respected authors and lecturers in the West Giovanni Maciocia illuminates and examines the art of traditional Chinese acupuncture with this in depth look at the secondary channels and other key structures encompassing the human body in Chinese anatomy This book describes in detail the pathways pathology diagnosis and treatment of the Luo Muscle and Divergent secondary channels as well as other key structures such as the Cou Li and Huang membranes and gives a thorough clear overview of subjects poorly understood and incompletely covered in other English language texts Over one third of the book is dedicated to the Eight Extraordinary Channels providing the reader with the most in depth information available in the English language Drawing on his broad clinical experience the author covers the energetic physiology pathology and points by body area providing ease

One of the significant advantages of Deep Blood books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes.
