Complete Linebacking, 2E Tepper, Lou, 2014-06-03 *Complete Linebacking* is the most comprehensive instructional resource for anyone playing or coaching the position. From skills and drills to game preparation and strategy, the book instructs linebackers and coaches on defending today's high speed offensive systems and ensuring proper positioning on any given play.

Sovereign Mars Jacob Haqq-Misra, 2022-11-09 The goal of sending humans to Mars is becoming increasingly technologically feasible, but the prospect of space colonization raises important questions about civilizational ethics and collective morality. History shows how destructive colonialism has been, resulting in centuries-long struggles to achieve liberation from the violent competition for land and resources by colonial powers. Space settlement poses the same temptation on a cosmic scale, with commercial actors and government space agencies doing the work previously carried out by European empires. The question is whether humans will take a different approach in this new frontier. In *Sovereign Mars*, astrobiologist Jacob Haqq-Misra argues that settling Mars offers humankind a transformative opportunity to avoid the mistakes of the past by liberating Mars as a sovereign planet from the start. Rather than see space as a way to escape human problems on Earth, Mars presents humanity with a challenge to address these problems by thinking carefully about the theory and practice of civilization. Drawing on past examples of cooperative sovereignty such as the Outer Space Treaty of 1967, the United Nations Law of the Sea Conventions, and the Antarctic Treaty System, Haqq-Misra begins a conversation about governance in space well in advance of the first arrival of humans on Mars and makes the case for an analogous approach to space that will preserve the space environment and benefit future generations. Haqq-Misra examines the emergence of sovereignty in space through the lens of historical precedent on Earth and develops models of shared governance that could maximize the transformative potential of Mars settlement. *Sovereign Mars* proposes the planet would serve humankind best as an independent planetary state, a juridical peer to Earth, to enable new experiments in human civilization and develop a pragmatic model for shared governance on Mars.

Transformation in Russian and Soviet Military History Carl W. Reddel, 1990

Warfare in Europe 1919-1938 Geoffrey Jensen, 2017-05-15 Although ostensibly a time of peace, one of the richest and most fascinating periods in military history falls between the two world wars. With good reason, even today military theorists look to these years for relevant lessons. The articles and papers collected together in this volume highlight the major themes and developments of interwar military affairs in Europe, including the new doctrines of tank warfare, air power, German Blitzkrieg, and Soviet operational art. They also demonstrate the important place of the major armed conflicts of the period, such as the Russian and Spanish Civil Wars, in European history.
