Mentoring the Mentor Paulo Freire,1997 Mentoring the Mentor recreates a Freirian dialogue in a printed format In this volume sixteen distinguished scholars engage in a critical and thoughtful exchange with Paulo Freire While some contributors voice appreciation for Freire s ideas and for what it means to reinvent Freire in a North American context others offer sharp critiques of Freire s philosophy and of equal importance of the various interpretations of his work A variety of chapters describe specific uses which have been made of Freire s ideas in diverse educational contexts from the New York City public schools to the revolutions in Guinea Bissau and Eritrea Finally Paulo Freire himself responds to the major issues which are raised in the volume and invites readers to share in a continuing lively dialogue about the meaning of democratic and revolutionary education The fundamental task of the mentor is a liberatory task It is not to encourage the mentor s goals and aspirations and dreams to be reproduced in the mentees the students but to give rise to the possibility that the students become the owners of their own history This is how I understand the need that teachers have to transcend their merely instructive task and to assume the ethical posture of a mentor who truly believes in the total autonomy freedom and development of those he or she mentors from Chapter Sixteen A Response by Paulo Freire **Journal of Proceedings of the ... Taking Control Myles I. Friedman,1993-10-30 We all share responsibility for vitalizing American education As Myles Friedman makes clear many of the changes needed are beyond the ability of educators to implement alone They need supportive coalitions among government community and business leaders and agencies to force change The purpose of the book is to present a prescription for interesting students in school so that they will want to attend and learn developing law abiding productive citizens who are able to keep our nation at the forefront through innovation and enabling students to find personal satisfaction while making social contributions The emphasis is on changing what and how students are taught rather than on changing the organization or politics of education Friedman asserts that it is the instruction students receive in the classroom that determines their potential much more than the structure of the educational system or the politics that govern it We all share responsibility for vitalizing American education As Myles Friedman makes clear many of the changes needed are beyond the ability of educators to implement alone They need supportive coalitions among government
