

12 Study tips for college students

01

Stay ridiculously organized

If your materials are not appropriately organized, you can't study from them

02

Take excellent notes

If your notes are bad or incomplete, you won't have good study materials.

03

Know task + time management principles

If you don't know what to do and when you can do it, it won't happen.

04

Prepare for hard classes

Preparing for hard classes ahead of time engages the brain in a cool process called "priming."

05

Review material between classes

Regularly reviewing course material between classes ensures that you won't forget everything you learn before your next class.

06

Pick apart previous tests

Pick apart prior assessments to learn your teachers' test-creation styles. This is valuable information.

07

Use spaced repetition

Spreading study sessions out over time lets your working memory to "forget" content just in time for your next session

08

Learn, don't memorize.

Memorization is temporary. Believe it or not, learning is often easier than memorizing.

09

Make your own study guide

Use notes, videos, textbooks + class materials to make a study guide and answer key

10

Study like it's your job.

Hold yourself accountable. Get there. Put your phone away. Commit to yourself.

11

Study in groups strategically

Study by yourself first; in groups second.

12

Use active recall

If you're not using active recall, you're not actually studying.
