The Time for Brand “You” Has Come: How to Build a Personal Brand Alexander Storozhuk,Alex Nigmatulin,2021-12-15 The significance of a personal brand has never been so important Without a strong one you will struggle to get good clients your business will not grow in popularity and your expertise will be harder for others to embrace The good news is that you can strengthen your personal brand while continuing doing what you love and it won t cost you a fortune Anyone with access to the Internet and social media can build a huge base of followers position themselves as a professional and start attracting clients for their business Check out this ebook to learn how to do it *How To Build A Personal Brand That People Remember* Bhavik Sarkhedi,Sahil Gandhi,2025-06-18 Studies in behavioral science show that people are 80 percent more likely to trust a name they recognize even if they can t recall where they first heard it That familiarity creates a kind of soft gravity pulling attention without demand Fingers run over the raised letters of a business card tracing the edges of something once unfamiliar The ink on a contract smells fresh yet the journey behind it is old A book opens to a page marked by someone who once read your words and saw themselves in them A notification blinks One then another then too many to count Loud voices fade quickly The ones that stay are the ones that settle into the right spaces the ones that arrive before you do They are carried not by force but by the weight of what they hold Some names pass like

footprints on the shore washed away before they can be seen Others remain carved into stone spoken long after the voice that carried them has gone silent The only question is when your name is spoken what will it bring to the mind that hears it

How To Build A Personal Brand That People Remember

A name carries weight when something stands behind it Without substance it drifts passing through conversations without settling People hear but nothing stays The ones remembered are the ones who leave something behind An idea a solution or a shift in perspective A tree stands tall because its roots dig deep into the earth A name moves the same way Visibility means little unless there is depth beneath it A face can be seen a voice can be heard but if nothing stays after the noise fades presence disappears like footprints in the sand Recognition builds over time A great post a viral video a strong introduction these are sparks Sparks catch attention but fire lasts when there is something to burn A name becomes steady when it carries trust when people hear it and know exactly what stands behind it
