The Millennial Myth Crystal Kadakia,2017-04-17 Ready for the Future or Stuck in the Past Millennials have been condemned as lazy entitled disloyal and disrespectful and needing constant hand holding But Crystal Kadakia a Millennial herself as well as an organizational development consultant and two time TEDx speaker shows that not only are these negative stereotypes dead wrong but each one conceals a positive workplace practice that forward looking companies must adopt if they are to endure She illuminates how the advent of digital technology is the crucial root cause of many Millennial behaviors and offers a guide for what our traditional workplace needs to do to attract engage and retain modern talent

Unfairly Labeled Jessica Kriegel,2016-02-29 A blueprint for managing people not generations **Unfairly Labeled** challenges the very concept of generational differences as an unfair generalization and offers a roadmap to intergenerational understanding While acknowledging that generational stereotypes exist author

Jessica Kriegel argues that they are wrong and that it's unreasonable to assume that the millions of people born in the same 20 year time span are motivated by the same things attracted to the same things and should be dealt with in the same way. Kriegel's experience as Organizational Developer at Oracle puts her squarely in the talent strategy realm where she works to optimize leadership development team effectiveness and organizational design. Drawing upon her experiences with workers of all ages and types she shows how behaviors know no generational boundaries and how to work with people based on their talents strengths and weaknesses rather than simply slapping on a generational label and fitting them into an arbitrary slot. There are 80 million Millennials in America yet there are myriad books on managing Millennials and working with Millennials and the problem with Millennials. This book shows that whether you're working with Millennials Generation X or Baby Boomers age is not the issue it's the interpersonal dynamics that matter most. Examine the concept of generational issues. Explore the disparate reality of each 20 year generational span. Learn to understand and work effectively with other generations. Facilitate intergenerational understanding sessions. The human mind craves categorization so the tendency to lump people together is natural. It may however be holding your organization back. The members of each generation have only one thing in common their age and even that varies by two whole decades. Why assume that they should all be managed the same way. Unfairly Labeled shows you a better way and provides a roadmap to a more effective organizational strategy.
