Beasley,Pamela A. Zeiser,2022-11-04 Social Media Ethics and COVID 19 Well Being Truth

Misinformation and Authenticity explores ways that some of the best and worst moments of the pandemic resulted from the interconnection of social media and ethics. The ethical challenges social media poses for corporate providers, government officials and users existed well before the outbreak of COVID 19. What responsibility do corporate providers bear for inaccurate information posted by users? What responsibility do users bear? In this post truth and polarized world, who defines accurate information? During the height of the COVID 19 crisis, public health agencies, emergency management agencies and traditional news media used social media to disseminate or to track information while users found communities for shared values or experiences. At the same time, users posted and amplified inaccurate or misleading scientific and health information, engaged in hate and escalated conspiracy theories that have proven detrimental to the public health response to COVID 19. Edited by Pamela A Zeiser and Berrin A Beasley, this collection brings together work from leading scholars in communication, English philosophy and political science to examine the ethical use of social media during COVID 19, offering both a multidisciplinary understanding of the subject and tools for managing the challenges found at the intersection of social media ethics and COVID 19.
