Tourism Recovery Based on Digital Nomadism Post-COVID-19 in Ubud, Bali Fransisco Situmorang, 2022-05-30 The COVID-19 pandemic is the worst crisis and historical record for the global tourism sector since the 1950s. Destinations that rely heavily on the tourism sector will face this pandemic's extraordinary impact, such as Bali, which experienced a significant depreciation of economic growth. However, the COVID-19 pandemic is also the right opportunity and momentum to redesign tourism development more sustainably to overcome the overtourism issue in Bali. Tourism recovery efforts must be carried out immediately by prioritizing product diversification and increasing destinations' value and quality according to tourism development trends, such as digital nomadism. Digital nomadism, as a lifestyle, allows individuals to work regardless of location and take advantage of that freedom to travel worldwide. The practice of digital nomadism has developed rapidly pre-pandemic in the Ubud Tourism Area, Bali, and it will increase further due to the digital transformation of human life during the COVID-19 pandemic. The Ubud Tourism Area recovery as a digital nomadism destination must be a priority consideration by the government, tourism entrepreneurs, and local communities in entering the post-normal tourism period.

Morrison, Dimitrios Buhalis, 2023-09-12 The Handbook offers a comprehensive overview of theoretical and practical perspectives for tracking and interpreting trends and issues in tourism sustainability, planning, and development, management, and technology. As such, this Handbook proposes clear definitions and provides a systematic classification scheme for such analysis. It reviews trends and issues in four thematic areas of tourism sustainability, planning, and development, management, and technology, with contributions from 83 leading tourism scholars from across the globe. The Handbook provides insights on the differences among domestic, outbound, and inbound markets and acknowledges that the supply sub-sectors of tourism are diverse, highlighting variations by geographic regions. The book emphasises the necessity to prioritise sustainability and the achievement of the UN's Sustainable Development Goals (SDGs). Students and professionals interested in tourism, hospitality, and sustainability will find a wealth of multidisciplinary knowledge in this Handbook.
