Social Media and Digital Politics James Jaehoon Lee, Jeffrey Layne Blevins, 2024-08-29 Informed by critical theory this book employs Social Network Analysis SNA to

examine the ever increasing impact that social media has on politics and contemporary civic discourse In just the past decade social media platforms have been at the forefront of political discord that played out in the January 6th insurrection the expulsion of a US President from major social media platforms the attempted regulation of social media in various states and the takeover of Twitter now X by one of the richest and arguably most financially influential persons in the world This book examines these phenomena through a comprehensive and in depth exploration of their meaning and implication for democratic society Informed by SNA James Jaehoon Lee and Jeffrey Layne Blevins examine several types of social and political commentary on one of the most influential social media networks and argue that the use of emotional appeals in these posts about social and political topics degrades the quality of civic discourse and encourages the abandonment of reasoning in democratic self governance A timely and vital text for upper level students and scholars in a variety of disciplines from media and communication studies journalism and digital humanities to social network analysis political science and sociology The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license *Adweek* ,2009-10
