*Working Virtually: Challenges of Virtual Teams* Jones, Robert, Oyung, Rob, Shade Pace, Lise, 2005-04-30 Virtual teams have been used to leverage scarce and distributed resources for many years. Expense reductions, health epidemics, air travel safety, and complex supply chains have only intensified this need. General best practices for leading and participating in virtual teams are well known, but why are there still misconceptions about their effectiveness? What drives the notion that face-to-face is always better? How can groups and individuals take the most advantage of virtual teams through the appropriate use of technology? *Working Virtually: Challenges of Virtual Teams* provides an in-depth practical perspective on the growing dependence of virtual teams and how to best exploit them. Based on years of direct experience in managing and participating in virtual teams as well as developing solutions to help virtual teams be more effective, the authors have provided unique insight that can be leveraged to help you get the most of your virtual teams. *Virtual Team Building Exercises* Robert Andrejev, 2006 [Blue Shark Team-Building](#) Rizwan Sheikh, 2021-10-03 Teams working in a crisis are operating in a high turbulence environment. Blue Shark Teams thrive in a crisis. They swim through turbulence and glide to project success. This book reveals the concepts and practical insight on how to create and lead Blue Shark Teams. The Blue Shark Model of Leading High Performance Teams is based on Daniel Goleman's emotional intelligence model and Bruce Tuckman's team building model: forming, storming, norming, performing, and adjourning. This book shows how to apply these models to large companies, small to medium size businesses, and projects during a crisis. It explains how managers can develop their leadership style and lead high performance teams. A real life case study which was a success story during the COVID 19 pandemic is discussed to elaborate the team building and emotional intelligence models. The lessons learned from this case study can be applied to any crisis in any industry across the spectrum including healthcare, IT, telecom, construction, manufacturing, oil and gas, airlines, financial services, retail, public sector, and consulting. The book arms executives and managers with the concepts and techniques to lead and manage projects, teams, and companies during turbulent and volatile times. If you are a CEO, CIO, CTO, or CXO of a Fortune 500 company, a mid to small size Business Owner, a Project Manager, or a Senior Executive facing a crisis, then this book is for you. It describes real life case studies and projects that show how the theoretical frameworks and models developed by leading researchers can be applied successfully to companies and projects, especially during a crisis and pandemic such as COVID 19.
