**Project-Based Learning+** Jorge Valenzuela, 2025-07-15 Project based learning PLUS essential life skills equals student and educator success Imagine not only helping kids reach their potential academically but as citizens in society as well In this updated edition of Jorge Valenzuela's book you will learn how Take project based learning PBL in which students develop educational skills like research critical thinking and teamwork to the next level by enhancing it with personal competencies like self management social awareness and responsible decision making Written by an expert in PBL student well being and technology with different levels of educator PBL experience in mind this guide to harnessing the power of these approaches provides The five elements of the PBL Framework Tools and rubrics that help you engage all students and assess their projects Ways to align PBL with five critical emotional intelligence and career readiness competencies Tips for putting PBL into practice to facilitate your own teaching plans The framework described in this book grounded by research and supported by practical steps is replicable in every classroom and provides educators guidance for strengthening their instructional practice to create an empowering student experience The Digital Future of English Simone Murray, 2025-07-18 More than any other academic discipline literary studies is the creation of print culture How then can it thrive in the digital era Early 1990s predictions of the book's imminent demise presented a simplistic either/or choice between the legacy of moribund print and triumphalist digital technology Yet we have grown to experience the two media as complexly interdependent and even complementary Clearly digital does not kill print But literary studies in the digital era cannot simply resume business as usual It is urgently necessary to reconsider the discipline's founding assumptions in light of digital technology The digital era prompts a rethinking of literary studies object of study as well as its methods theories audiences and pedagogical practices What counts as literature necessarily shifts in an age of proliferating born digital texts and do it yourself DIY online publication Where should literary studies sit institutionally and how might it graft contextually oriented

social sciences methods onto its traditionally humanistic mode of textual analysis Why should literary study continue to marginalize emotional responses to texts when online communities bond via readerly affect Who is the audience for literary criticism in an age where expertise is routinely challenged yet communication with global book loving publics has never been technologically easier Finally how can we utilize digital tools to rejuvenate literary studies pedagogy and help English staff better connect with millennial age students Literary studies has been convulsed for decades by debates over electronic literature and more recently digitally aided distant reading But these discussions still mostly confine themselves to demarcating our proper object of study We need to think more expansively about digital technology s impact on the underpinning tenets of the discipline Literary Media Studies is pitched at fellow literary scholars book historians media theorists cultural sociologists digital humanists and those working at the interface of these converging disciplines It models constructive engagement with contemporary digital culture Most importantly it brings a burst of sorely needed optimism to the question of literary studies digital future
