New Careers for Youth Walter B. Pitkin,1934 New Generation ,1924 **A Student Study of Employment and Unemployment of 14-17 Year Olds in Tompkins County, N.Y.** ,1971 *Youth and Jobs* Douglas Sharp Ward,Edith Marie Selberg,1942 **Youth and Employment** ,1977 *Youth Record* ,1996 *The Youth's Companion* ,1915 Includes songs for solo voice with piano accompaniment *Computerworld* ,1984-07-23 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld s award winning Web site Computerworld com twice monthly publication focused conference series and custom research form the hub of the world s largest global IT media network *Teen Fathers* Gail Barbara Stewart,1998 First person accounts with four young fathers from varied backgrounds describe their different circumstances and how becoming a teenage father has affected their lives *USA Today* ,1991 *New Policies for the Young* Organisation for Economic Co-operation and Development,1985 A comprehensive review was undertaken of the serious problem of youth unemployment in the countries of the Organisation for Economic Cooperation and Development OECD most of the countries of Europe and the United States and the means for dealing with it in the longer term The study found that youth unemployment has been a major concern since the mid 1970s rising with each downturn of the economy and failing to recover with economic recovery Today unemployment for disadvantaged youth has increased but so has unemployment among better educated and better trained young people especially for those born in the late 1950s and early 1960s Labor force participation rates for youth have dropped in nearly all the countries especially among teenagers Young women have experienced similar rates of unemployment as young men however causes are subtle and often relate to the types of jobs for which girls are trained Nations should adapt policies to help youths find employment One solution is economic growth but even an annual growth of 4 percent will not solve the youth unemployment problem for about five years Consequently shorter term policies such as school or travel grants or government sponsored jobs are needed to help youth Especially at risk are disabled youth whose unemployment problem is even worse than that of the disadvantaged Additionally sex fair educational practices should be started to help young women prepare for careers Youth unemployment is a very serious problem that cannot be ignored by the countries of the OECD The appendices consist of an article by L C Hunter The Role of Labour Demand in Youth Employment and Unemployment and an OECD committee report KC **The New Republic**
