Jule Prescher, 2023-06-06 Bachelor Thesis from the year 2023 in the subject Communications Multimedia Internet New Technologies grade 1 3 University of applied sciences Cologne language English abstract This thesis aims to realize how influencer marketing performs and its impact on the Cx Therefore the research addresses the following questions How powerful are influencers these days What is different about influencer marketing and why is it a successful strategy How do people perceive information shared by influencers and which factors are decisive for potential customers to purchase products advertised by influencers What impact does an influencer have on the overall Cx The internet has been fully integrated into people s daily lives worldwide over the past years The percentage of the world s population with access to the internet has doubled from 32% in 2011 to 63% in 2021 90% of people from developed countries access the internet in 2021 At the same time the number of social network users is increasing These networks have the purpose of connecting with friends In 2022 5 billion people have access to the internet worldwide and 4 7 billion people use social media SM Ultimately 93% of those with internet access own at least one SM account that is more than half the population worldwide Through time companies found new marketing strategies which reached active people on SM These platforms are necessary to reach Generation Z people born in the late 1990s They are different and cannot be reached in the same way as they watch Netflix instead of TV or listen to Spotify instead of the radio for example Influencer marketing became a 10 billion industry in 2020 Influencers share their lives on SM networks Due to their high reach they receive offers from companies for cooperation Influencers followers admire and trust their recommendations due to their personal and authentic representation While advertising products influencers show how to use them where to buy them and give their opinion For higher sales influencers often receive promo codes for a discount or free products for each order Building a Feminocentric Canon Tom Knoblauch, 2025-12-11 In Building a Feminocentric Canon C line Sciamma and the Dawn of Post Autism Tom Knoblauch positions C line Sciamma as not just an important voice within contemporary cinema but also as the standard bearer and skeleton key for a new vision of authorship and a reimagined feminocentric canon of tomorrow As the

digital age has ruptured traditional cinematic norms and complicated logics of legitimacy and authorship Knoblauch focuses instead on the promise of new conventions contending that these seismic shifts call for a broader reevaluation of the current canon Cinema's future he asserts will exist in a space that is both post cinema and post auteur eschewing what has often been an exclusionary politics of genius that has dominated the medium since the French New Wave In envisioning a new system of valuation for authentic expression that incorporates historically marginalized voices Knoblauch embraces the new uneven ground we find ourselves on to demonstrate how Sciamma's influential filmography is well positioned to serve as the basis for a revitalized canon that offers a bold challenge to the status quo This canon need not be viewed as radical rejection of tradition but instead as a horizon upon which fresh innovative traditions can be formed
