Debden Warbirds The 4th Fighter Group In Ww II:

The Debden Warbirds Frank E. Speer, 1999 The P 51 Mustangs of the 4th Fighter Group were the first to escort bombers over Berlin during World War II the first to escort bombers from England to Russia and at war s end ranked first in the number of enemy aircraft destroyed over 1 000 The Debden Warbirds describes in detail the everyday workings of this record setting fighter group from their Eagle Squadron beginnings in Hurricanes and Spitfires to their unprecedented triumphs in Thunderbolts and Mustangs This authentic account gleaned from the Squadron and Tower Diaries is enhanced by dozens of combat reports and personal accounts from pilots and crews whose day to day encounters are faithfully recorded Author Frank Speer became an ace within seventeen missions over Germany flying P 51 Mustangs with the 4th FG having been credited with destroying six enemy aircraft On a flight over Poland his aircraft was shot down He walked nearly 400 miles from the site of his crash landing before he collapsed from exhaustion and was captured by the Germans He was incarcerated in three different Stalags prior to his escape and repatriation He was awarded the Distinguished Flying Cross and the Air Medal with three Oak Leaf Clusters He lives in Pennsylvania *The Debden Warbirds* Frank E. Speer, 1996-06-01 *Fighter Bases of WW II US 8th Army Air Force Fighter Command USAAF, 1943-45* Martin W. Bowman, 2009-08-19 This book covers the bases used during the Second World War by the American fighter units that flew in support of the 8th Air Forces heavy bomber forces The long range Lightnings Thunderbolts and Mustangs escorted the Mighty Eighth's Flying Fortresses and Liberators on their deep penetration raids into occupied Europe and Germany Fighter cover was vital since the USAAF flew daylight raids and in the early months the number of US aircraft lost to the defending Luftwaffe fighters was unacceptably high The airfields included are Bodney Bottisham Boxted Debden Duxford East Wretham Fowlmere Halesworth Honington Horsham St Faith Kings Cliffe Leiston Martlesham Heath Raydon Steeple Morden Wattisham and Wormingford This book looks at the history and personalities associated with each base what remains today and explores the favorite local wartime haunts where aircrew and ground crew would have sought well deserved entertainment and relaxation Other museums and places that are relevant will also be described and general directions on how to get them included [P-51B/C Mustang](#) Chris Bucholtz, 2022-02-17 This up to date volume straps the reader into the cockpit of the P 51B C as the Mustang equipped fighter groups of the Mighty Eighth Air Force attempt to defend massed heavy bomber formations from deadly Luftwaffe fighters charged with defending the Third Reich Luftwaffe Reichsmarschall Hermann G ring admitted that the appearance of long range Mustangs over Berlin spelled the end of the Jagdwaffe s ability to defeat American daylight bombing But the Mustang was far more than an escort it was a deadly hunter that could out perform nearly every German fighter when it was introduced into combat Entering combat in Europe in December 1943 P 51Bs and P 51Cs had advantages over German Bf 109s and Fw 190s in respect to the altitude they could reach their rate of climb and top speed Initially tapped for close bomber escort Mustangs were quickly turned loose to range ahead of the

bomber stream in order to challenge German fighters before they could assemble to engage the bombers en masse Thanks to the Mustang s superior performance USAAF pilots effectively blunted the Luftwaffe s tried and tested tactic for destroying B 17s and B 24s Boldness and aggression in aerial combat meant that P 51B C pilots inflicted a rapidly mounting toll on their German counterparts in the West during the early months of 1944 contributing mightily to Allied air superiority over northern France on D Day This volume packed full of first hand accounts expertly recreates the combat conditions and flying realities for Mustang pilots including headline aces such as Don Blakeslee and Don Gentile as well as lesser known aviators It is heavily illustrated with photographs artwork and innovative and colourful 3D ribbon diagrams which will provide a realistic overview of the most dynamic dogfights in aviation history The 479th Fighter Group in World War II Terry A.

Fairfield,2004 This book is the result of nearly six years of research gathering of materials and interviews It presents a chronological listing of the 479th Fighter Group s activities during the World War II era from its beginnings until its deactivation Based upon a summation of the group s historical records the account also contains personal anecdotes provided by many of the group s former members as well as over 650 photos that serve to illustrate the narration Hopefully through the assemblage of this information the memory of the group and the men who comprised the living lifeblood of the 479th FG will be better known and remembered by future generations The Flying Greek Col. Steve N. Pisanos, USAF (Ret.),2008-04-30 Steve N Pisanos s The Flying Greek is both the classic tale of an immigrant s bond with America and an aerial adventure When young Pisanos arrived in the U S in 1938 he worked studied English and learned to fly He earned a private pilot s license in 1941 and soon after Germany invaded Greece he volunteered for the embattled British Royal Air Force He served with the 268 and 71 Eagle Squadrons The 71 Eagle Squadron was one of three Eagle squadrons comprised of U S volunteers In 1942 he became a naturalized U S citizen while in London England He was the first individual in American history to become a citizen while outside the U S border and his becoming a citizen allowed him to be commissioned a second lieutenant in the U S Army Air Forces In riveting detail Pisanos recounts his combat record from fighter sweeps and bomber escort missions to dogfighting flying the Spitfire the P 47 and the P 51 While flying a P 47 named Miss Plainfield he scored his first aerial victory on May 21 1943 By January 1 1944 he had become an ace After his tenth confirmed kill he crash landed his P 51 in France and spent six months with the French Resistance successfully evading capture Because of his exposure to the French operations the Air Force could not risk his capture again so he returned to the U S and became a test pilot at Wright Field where he also attended the Air Force s test pilot school Despite grave danger Pisanos set aside his pride fears and misgivings to help achieve a greater good The Flying Greek is an entertaining and remarkable journey that will interest historians and aviation enthusiasts **4th Fighter Group** Chris Bucholtz,2012-12-20 With first hand accounts and colour artwork this title describes the planes and pilots of the famous 4th Fighter Group Fourth but First that became the highest scoring unit of the mighty 8th Air Force in World War 2 Formed around a nucleus of pilots

already seasoned by their experience as volunteers in the RAF's Eagle Squadrons the 4th Fighter Group was established in England in October 1942. Initially flying Spitfires the Debden Eagles went on to fly the P 47 and P 51 becoming in July 1943 the first Eighth Air Force fighter group to penetrate German air space. The group's record of 583 air and 469 ground victories was unmatched in the Eighth Air Force and the group produced a cast of characters that included legendary aces Don Blakeslee, Pierce McKennon, Kid Hofer, Duane Beeson, Steve Pisanos, and Howard Hively. Involved in the D Day landings, Operation Market Garden, the Battle of the Bulge, and the crossing of the Rhine, the group's achievements came at a high price with a 42 percent casualty rate. Packed with pilots' experiences, detailed aircraft profiles, and full combat histories, this book is an intriguing insight into the best known American fighter unit in World War II. United States Air Force and Its Antecedents James T. Controvich, Martin Gordon, 2004-06-24. This expanded and revised edition of the bibliography originally compiled for the United States Air Force Historical Research Agency is the most comprehensive listing of unofficial published histories of the United States Air Force and its antecedents. It covers the air force from its genesis as the US Army Signal Corps Aviation Section to the present. These titles are a rich source of information for anyone interested in the history of combat and peacetime operations of the Air Force. Researchers and libraries will find the organization of titles easy to use. Entries include private sponsored or unofficial histories, often written by the unit historian, personal narratives, purely photographic or pictorial histories, route of battle maps, published or printed rosters, officially produced titles. This is an indispensable resource for military aviation historians, libraries with strong collections in military and air force history, and unit history collectors. It is also of special interest to genealogists as many unit histories contain rosters and photos of personnel. *American Book Publishing Record*, 1999. Two-Man Air Force Philip Kaplan, 2006-02-19. American volunteers Don Gentile and John Godfrey flew together as leader and wingman respectively with the USAAF 4th Fighter Group based at Debden near Cambridge in England. At the end of their missions with the 4th, the two of them had accounted for over 58 enemy aircraft destroyed. Major Gentile had scored 22 air and 6 ground kills before he was returned to the USA to help raise money for the war effort. Major Godfrey was credited with 18 air and 12 ground kills before he was shot down and taken prisoner of war. This is the story of their amazing adventures and wartime partnership from their basic training in Canada and then onto England where they first flew the Supermarine Spitfire. It continues with their transfer to the USAAF 4th Fighter Group when the US entered the war and when the two

were retrained to fly the P 47 Thunderbolt and eventually the superb P 51 Mustang These two ace pilots loved life as much as flying and as well as being hell bent on destroying the enemy in the skies of Europe they also lived life to the full in their off duty time in England *AB Bookman's Weekly* ,1988-09 **Mustang the Inspiration** Philip Kaplan,2013-02-19 If it looks right it will probably fly right a tired old saying among airmen but one that persists Think if you will of the handful of aeroplanes that most people would probably agree are the best looking examples of all The list is short but distinguished and the proof is in the enthusiastic common view of most pilots who have flown them for nearly all it was love at first sight and first flight For most that little list includes the Vickers Supermarine Spitfire the Douglas DC 3 the Hawker Hunter the Lockheed Constellation the Concord and the North American Mustang Of these the Spitfire and Mustang stand out and remain extra special to the majority of pilots who have been privileged to fly them One common thread exists among those who have experienced both of these fine machines an opinion that seems to hold up even after a lifetime of flying the best the aviation design community has created While the Spitfire may have a slight edge in light touch handling if I have to go to war in one type I'll take the Mustang every time This comprehensive account of the Mustang aircraft charts the operational history of the craft and also relays a the personal stories and experiences of the men who flew the Cadillac of the skies as it has been described A vivid and enthralling history set to appeal to aviation enthusiasts looking for more than just a mere operational history of the Mustang's exploits
