Crashed J. Adam Tooze,2019 Winner of the 2019 Lionel Gelber Prize Majestic informative and often delightful insights on every page Yanis Varoufakis Observer The definitive history of the Great Financial Crisis from the acclaimed author of The Deluge and The Wages of Destruction In September 2008 the Great Financial Crisis triggered by the collapse of Lehman brothers shook the world A decade later its spectre still haunts us As the appalling scope and scale of the crash was revealed the financial institutions that had symbolised the West s triumph since the end of the Cold War seemed through greed malice and incompetence to be about to bring the entire system to its knees Crashed is a brilliantly original and assured analysis of what happened and how we were rescued from something even worse but at a price which

continues to undermine democracy across Europe and the United States Gnawing away at our institutions are the many billions of dollars which were conjured up to prevent complete collapse Over and over again the end of the crisis has been announced but it continues to hound us whether in Greece or Ukraine whether through Brexit or Trump Adam Tooze follows the trail like no previous writer and has written a book compelling as history as economic analysis and as political horror story
