Representing the Other in Modern Japanese Literature Rachael Hutchinson, Mark Williams, 2006-09-27

Representing the Other in Modern Japanese Literature looks at the ways in which authors writing in Japanese in the twentieth century constructed a division between the Self and the Other in their work Drawing on methodology from Foucault and Lacan the clearly presented essays seek to show how Japanese writers have responded to the central question of what it means to be Japanese and of how best to define their identity Taking geographical racial and ethnic identity as a starting point to explore Japan s vision of non Japan representations of the Other are examined in terms of the experiences of Japanese authors abroad and in the imaginary lands envisioned by authors in Japan Using a diverse cross section of writers and texts as case studies this edited volume brings together contributions from a number of leading international experts in the field and is written at an accessible level making it essential reading for those working in Japanese studies colonialism

identity studies and nationalism The Self Between Eugene Webb,2014-12-01 After the disappointing events of the 1960s including the loss of Algeria the Soviet invasion of Czechoslovakia and the American war in the former French colony of Indo China people in France began to look seriously to Freudianism in the transformed version of Jacques Lacan for a new way of understanding human relations and the relations between human beings and society The movement in France is not specifically psychoanalytic but developed against such a background Psychoanalytic thought acquired the kind of centrality in French intellectual life once associated with existentialism and Marxism and later with structuralism a centrality it probably never possessed in the United States even at the peak of its popularity The movement was a reassessment and rethinking of Freud's thought and influence and it was a movement that was almost unknown to the American public The Cambridge Introduction to Literature and Psychoanalysis Jean-Michel Rabaté,2014-09-22 Taking Sigmund Freud's theories as a point of departure Jean Michel Rabat's book explores the intriguing ties between psychoanalysis and literature
