**Decentralization in Healthcare** George Shakarishvili, 2005      **Governance of Hospitals in Central and Eastern Europe** Przemyslaw Marcin Sowa, 2015-10-28 This book presents a novel view of healthcare system transition in post communist countries It is the first region wide comparative study of hospital governance in Eastern Europe Comprehensive new material shows the evolution and significance of governance complementing recent publications on the topic from industrialised countries Throughout the book governance is described and substantiated as a major component that together with provider payment mechanisms defines the hospital sector s operations This view subscribes to the economists growing appreciation of extra financial aspects in the discussion of incentives and regulation of healthcare markets In particular the book explains how governance arrangements may affect the outcomes of healthcare financing reforms and should thus be seen as a critical determinant of their success or failure This new model of thinking about healthcare system transition emerges from an analysis of 22 countries over the course of two decades While the primary focus of the study is on developing the hospital sector an extensive background chapter provides a standalone introduction to the dynamically changing landscape of healthcare in Eastern Europe and an overview of the various problems and challenges the region is facing Practitioners policy makers academics and students interested in Eastern European healthcare systems their origins current status and ways forward will appreciate the book s reflections on the problem complexity the clarity of its concepts and its accessible style of presentation      *Local Government in Central and Eastern Europe* Andrew Coulson, Adrian Campbell, 2007-08-02 This book examines the democratic changes that took place in civil society in Central and Eastern Europe after the break up of the Soviet Union      **Health Reforms in South-East Europe** W. Bartlett, J. Bozikov, B. Rechel, 2012-09-24 Over the last two decades the countries of South East Europe have engaged in far reaching reforms of their health systems However overviews of reform efforts in this part of Europe have been sorely lacking This book addresses this shortage through the analysis of key aspects of health reforms and health workforce mobility in South East Europe      *Health Politics in Europe* Ellen M. Immergut, Karen M. Anderson, Camilla Devitt, Tamara Popic, 2021-06-02 Health Politics in Europe A Handbook is a major new reference work which provides historical background and up to date information and analysis on health politics and health systems throughout Europe In particular it captures developments that have taken place since the end of the Cold War a turning point for many European health systems with most post communist transition countries privatizing their state run health systems and many Western European health systems experimenting with new public management and other market oriented health reforms Following three introductory stage setting chapters the handbook offers country cases divided into seven regional sections each of which begins with a short regional outlook chapter that highlights the region s common characteristics and divergent paths taken by the separate countries including comparative data on health system financing healthcare access and the political salience of health Each regional section

contains at least one detailed main case followed by shorter treatments of the other countries in the region Country chapters feature a historical overview focusing on the country's progression through a series of political regimes and the consequences of this history for the health system an overview of the institutions and functioning of the contemporary health system and a political narrative tracing the politics of health policy since 1989 This political narrative the core of each country case examines key health reforms in order to understand the political motivations and dynamics behind them and their impact on public opinion and political legitimacy The handbook's systematic structure makes it useful for country specific cross national and topical research and analysis

**Health Care Systems in Europe under Austerity** E. Pavolini, A. Guillén, 2013-11-27 This book analyses recent reform trends of European health care systems Using eight European countries case studies it connects policy reforms with a healthcare quadrilemma and compares how well these systems perform in terms of economic efficiency medical achievements social inequalities and responsiveness to patients and workers
